Email Input Summary	6

PUBLIC ENGAGEMENT SUMMARY FROM NEIGHBORHOOD FOCUS MEETING (1/22/24)

Neighborhood Focus Meeting Key Highlights

- Neighborhood Focus Meeting was added to the public engagement process due to additional concerns collected through the October through November public comment period. The meeting addressed issues and concerns the planning team heard from the adjacent neighborhood.
- ✓ Event was held at Trace Church on Monday, Jan. 22, 2024
- ✓ Estimated 125 people in attendance (some did not sign in). This is an estimate based on the sign in sheet at the entrance to the meeting.
- ✓ During the meeting, a presentation was given by Lonna Thelen, Trails, Open Space and Parks Manager and David Deitemeyer, Sr. Landscape Architect about the public engagement and feedback to date, specific neighbor concerns and modifications that were made to the draft plan to reduce those concerns. Attendees were given the opportunity to engage with PRCS staff and the project team following the presentation to ask any additional questions.
- ✓ 17 attendees gave additional feedback via comment cards which were collected at the end of the meeting.

Presentation Summary

Common concerns from the surrounding neighborhoods (in no particular order)

- 1. Traffic Impacts
- 2. Fire Evacuation
- 3. Turning Blodgett into Theme Park
- 4. Impacts on Property Values
- 5. Security and Crime, Trailhead Management
- 6. Trailheads/Parking
- 7. Trails
- 8. Wildlife

How the concerns were addressed in the Public Review Plan:

Concern/Feedback	Adjustment
Traffic impacts	Removed 4-way stop
	Plan recommends fire mitigation; recommends that rangers close the park and limit access during emergencies
	There is no bike park with this plan; the Pikeview Quarry is a separate area and will require a separate planning process
	Parks in Colorado Springs raise the value of nearby residential properties by \$502 million (ColoradoSprings.gov/parks/page/economic-benefits-parks)
	Parks staff does not have enforcement capabilities; recommend all Open Space parking behind gates and earlier gate closures

PUBLIC ENGAGEMENT SUMMARY FROM NEIGHBORHOOD FOCUS MEETING (1/22/24)

Concern/Feedback	Adjustment
Trailheads/Parking	North Trailhead: reduced to 51 stalls Orchard Valley: Went from 45 to 15 stalls and adjusted location of amenities Quarry Trailhead: Went from 250 to 180 stalls
Trails	To improve user experience and safety, created 2.7 miles of downhill biking only trail, 1.1 mile of hiking only trail and 9.9 miles of multi-use trails (strong support of this throughout public engagement); future opportunity to consider hiking only trail to Blodgett Peak with USFS
Wildlife and Bighorn Sheep habitat concerns	Approach wildlife with adaptive management plan and will implement seasonal trail closures, restricting dogs, closing trails, etc. if impacts arise; decommissioning 11.8 miles of unsustainable trails in wildlife corridors to restore open space and habitat areas.

Each of the following items were concerns not addressed in the meeting. These concerns were written on comment cards and left with the project team following the neighborhood focus meeting.

Recurring themes:

- No paragliding
- Concerns regarding native cacti and yucca
- Nefarious activity in the parking lots
- Would like to see collaboration with the USFS now to begin planning the trail to Blodgett Peak
- Concerns regarding light pollution if lights are installed at the trailheads
- Not advertising neighborhood access points and keeping biking from riding down neighborhood streets

*Responses gathered during the neighborhood meeting can be found in below.

PUBLIC ENGAGEMENT SUMMARY FROM ONLINE COMMENT CARD (1/17/24 to 2/18/24)

Online Comment Card Summary

- ✓ The Online Comment Card was open from Jan. 17 to Feb. 18, 2024
- \checkmark 680 responses were submitted
- ✓ Note: 252 responses were unique original responses. There were 13 "sets" of responses consisting of a total of 428 duplicate verbatim responses
- ✓ The Online Comment Card asked one question: "After reviewing the Blodgett Open Space Public Review Plan, do you have any considerations that have yet to be addressed?"

The summary of the comments:

Recurring key themes:

- Bike-only trail concerns: Support for more hiking access and concerns the plan is too bike-focused.
- Hiking-only trails: Desire to expand hiking only trails in the open space, especially in the north area.
- Wildlife concerns: The plan will have negative impacts on wildlife and essential habitat.
- Property value concerns: The "over-development" and impacts on property values.
- Law enforcement and maintenance concerns: Want to know if there will be future funding to support security/enforcement as well as maintenance.

Recurring common themes:

- Traffic concerns: The plan will create increased traffic, congestion, and speeding.
- Trail concerns: Changes to Fenceline Trail and bikers having limited access on the north side due to hiking-only trails.
- Restroom concerns: The bathroom near residential homes at Orchard Valley will negatively impact homeowners.
- Paragliding concerns: expressed toward adding a paragliding landing site, topics: safety, privacy, and concern for insurance rates.
- Fire mitigation support: Believe the plan provides proper fire mitigation and evacuation planning.

New themes identified:

- Support for the plan and the positive impacts on local recreation and/or the economy.
- Support for the plan, especially the changes to the Orchard Valley parking lot.
- Desire to keep the current alignment and conditions of Red Squirrel Trail for a hiking trail

PUBLIC ENGAGEMENT SUMMARY FROM ONLINE COMMENT CARD (1/17/24 to 2/18/24)

Overall Key Takeaways from Comment Card

Overall, the comments received from the online comment card regarding the Public Review Plan revealed various concerns, specifically from residents in the neighborhoods surrounding Blodgett Open Space. Some of the main concerns included the negative impact of the restroom near residential homes, the focus on biking in the plan, desire for more hiking only trails, potential harm to wildlife and their habitat, over-development of the open space affecting property values, and the need for future funding for law enforcement and maintenance. There were also concerns about increased traffic on Woodman Road and nefarious activity taking place at the trailheads. Comments also expressed concerns for changing or decommissioning existing trails and the non-equivalent ratio of hiking-only vs. biking-only trail.

On the other hand, some comments expressed support for the plan and its positive impacts on recreation and the local economy, as well as approval of changes to the Orchard Valley parking lot including moving the location of the amenities. Additionally, there was some support for the plan's fire mitigation measures and evacuation planning.

*Responses gathered from the Online Comment Card can be found in below.

PUBLIC ENGAGEMENT SUMMARY FROM EMAILS SENT JAN. 17-FEB. 18

Email Summary

 $\checkmark~$ Received 29 emails between Jan 17 to Feb 18, 2024

Recurring Key Themes

- Wildlife habitat concerns: Many expressed they would like Blodgett Open Space to be a "Nature Preserve" for the bighorn sheep in the area as well as the deer, bears, mountain lions and birds. Many emails were from residents wishing to "Keep Blodgett Wild" and believe more used will be detrimental to the wildlife population around Blodgett Open Space.
- Single-use Hiking Trail concerns: Many residents emailed to continue to express their frustration with the uneven ratio of hiking-only vs. biking-only trails proposed in the Public Review Plan. They would like to see an increase in hiking-only trails and feel the multi-use trails plan decreases existing hiking-only trails. A new concern was brought up over the reroute of the Red Squirrel Trail. Those that mentioned Red Squirrel believe it should be left as a hiking only trail and not be rerouted.
- Multi Use Trails Many expressed concerns that the multi-use trail trails are really being planned for mountain bikers. This will
 increase the number of biker interactions and create a situation of the current tails in the north portion of the open space being
 overrun by mountain bikers. Residents are fearful of mountain bikers speeding through the open space, the safety risks, and
 the less peaceful hikes due to the increase in mountain biking activity.
- Traffic and law enforcement concerns: The residents living in the neighborhoods surrounding Blodgett Open Space continue to express their concern over the current issues with traffic, speeding, drag racing, and other activities happening at the trailheads and along the public roadways. Their fear is if the parking lot capacities are increased and trailhead amenities are added, the issues will not be address and will increase. Comments suggest addressing the concerns now before the trailheads are expanded. Concerns regarding illegal activities in and around the parking lots and the lack of law enforcement were also expressed. Many would like to see automatic security gates in the parking lots, earlier closing times and better enforcement. There were concerns also related to any discussion of the 4-way stop on Woodmen that was considered earlier in the process. Many felt that HOA's in the area should not be responsible for addressing or cover the expenses for enforcement at regionally used Blodgett Open Space.
- Trailhead parking capacity concerns: Many emails expressed concerns regarding too much parking being provided at the trailheads. Specifically, there was concern the North Trailhead as proposed is too large, would be an "eye-sore" and is not needed. It was expressed there is sufficient parking along Woodmen Rd. Additionally, some felt the parking distribution was not equally distributed to other trailheads, and that the North Trailhead was unnecessarily too large and would impact the Peregrine neighbors.
- Paragliding concerns: Many residents emailed and continued to express their concerns regarding the proposed paragliding launch and landing sites stating it is too dangerous in and around a densely populated neighborhood. They are also concerned of the potential affects paragliding could have on wildlife.

Recurring common themes:

 Additional themes stated but less frequently included concerns over property value impacts, adding parking lot lighting to trailheads, paving over paradise, restricting dogs (to reduce impacts to wildlife), and concern over wasting tax funds/TOPS funds for this plan and improvements to Blodgett Open Space.

*Emails sent to the project team between the Jan. 17 through Feb. 18 comment period can be found in below.

** Additional emails received outside the comment period but submittal to the public record can be found in Appendix E

Blodgett Neighborhood Meeting Comments (Jan. 22, 2024) - Verbatim comments

Show access gate for cell tower in proper spot. CE approvals should identify new build trails.

Paragliding continues to be a concern. Even with the moved landing zones users may make mistakes. How does this affect home owners insurance?

I am interested to hear how the city plans to handle the native cacti and yucca growing close to trails that will be widened. These plants are native but slow growing. Will they be relocated?

We live here (marks spot on map) across the street from N. parking lot. We deal with crime and nefarious behavior daily (last night street signs were stolen). You say parking will all be behind gates. What happens to current roadside/street parking?

I live in Peregrine. Ute Parks has bike trail. Why is there a need to develop Blodgett which is just 2.5 miles away?

CSPD already has slow response time to emergencies. Where will the staff come from for these "security audits"?

Thanks for moving the landing zone from parks but...still don't need paragliders over and around my neighborhood. Multi-use trails are very important. Very excited for downhill only trails.

We like to see specific section addressing how native cacti and yucca will be protected and rehomes as trails are widened. Many are slow-growing.

I've lived in the area for more than 25 years and seen the increase in mountain biking. The narrow trails in BOS do not allow for safe interactions between hiking and biking the bikers DO NOT YIELD as they are supposed to. Therefore we must minimize multi-use trails.

Engage the National Forest now to start the planning.

Not advertising the neighborhood access points does not keep bikers from riding quickly down our streets.

Now I have a new concern! Lights in the parking lot lights at night are the very worst thing that could be done to nature! We have a lot of owls. Plus, I don't want a glow

Would like to see all parking spaces reduced at the North Trailhead and Orchard Path

*Notes: Duplicates verbatim comments have been removed

ObjectI	D Globa	aliD (CreationDate	Verbatim Responses
				Thanks for not expanding the Orchard Valley Trailhead parking lot beyond 15 spaces. It's also great to see that there's no longer a toilet and an access road along the fenceline of the open space at the south end of the Orchard Valley Trailhead parking lot. The removal of the
1	145 ab081	1ab2-	01/30/2024 01:08:25.487	eyesore barn and shed at the intersection will greatly improve the trailhead aesthetics.
				The new plan is better in that it keeps the Orchard Valley access road and amenities away from the Oak Valley Ranch neighborhood skyline. Please don't put a toilet at the Orchard Valley Trailhead-It's too close to residences. The North and Quarry Trailheads are further away from homes and therefore more suitable for toilets. Please remove the unsightly barn & shed near the intersection of Woodmen,
1	161 bb254	461e-	01/31/2024 17:47:54.322	Centennial, & Orchard ValleyThey're ugly structures that no doubt are havens for rodents.
3	335 b299c	ce0d-€	02/15/2024 01:04:01.355	We know that 'bad things' happen 'after dark' at the trailheads. I'm very concerned about the quarry trailhead parking lot as it is far awa from any roads/ houses. The quarry trailhead will be breeding ground for all kinds of annoying (loud music, trash) & illegal (drugs, drinking, fireworks, fires, speeding up & down the long road and or the lot itself) activities. The parking lots MUST have locking gates/ security cameras. Conversely, we would not want lights to keep light pollution down
-			- , -,	
				What makes Blodget special is that it is a plce to find a quiet space where we can hike without crowds and often lucky enough to see wildlife. This plan will take away that quiet peaceful place that has been enjoyed by so many. This plan will make it just like every other park in the city.
				By forcing people to a 1ish mile hike and having many bike trails, you will increase the activity and noise. wildlife will be push out to find other places of solitude. Restore- Not Develope

More people w/limited egress degrades safety.

	2. Post "No Parking" signs on the street and work with police to ensure enforcement
	If it can't be enforce don't do expand and keep parking as is.
	3. Remove neighborhood access trails from all published maps
	Trail ends on prive residential road. Don't want to attrack hikers to part their community already minimizes parking.
117 4bf27e67-1	01/26/2024 20:06:34.200 Community does not want more congestion, crime, and litter.
2,0000000000000000000000000000000000000	A herd of bighorn sheep live there. Please don't disturb their home and make them endangered by developing and publicizing this open
	space and ruining their habitat.
	Who is going to patrol and clean up the proposed parking lots and restrooms? There is loitering and vandalism already in the existing Oak
	Valley Ranch and Blodgett Open Space parking lots. Restrooms were removed from parks like Oak Valley Ranch Park supposedly because
82 e712a608-4	
	A well designed disc golf course! We have 4 good courses in the springs but none are professional caliber course. the sport is growing like
252 ddcecf1e-7	02/04/2024 17:44:31.226 crazy especially in Colorado and we deserve a championship level course here.
	Additional Concerns: VERY IMPORTANT. INCREASED HIKING ONLY TRAIL LENGTH OR TRAILS! There is high risk of injury to bikers/hikers
	with "multi use"not all bikers are respectful of hikers and "do their thing"scaring a hiker, or get too closeloose gravel, a rock can cause
	a biker to lose control of their bike - if near a hiker, cause injury to both. if a hiker has a dog, it can be spooked by biker, veer out into
110 9a6a5395-2	01/25/2024 15:36:15.044 biker's path with both hiker and biker entangled causing potential injury.
	After speaking with CSPD, there is no additional patrolling available for our area. So a parking lot tucked into the north trailhead area will
	become an even bigger draw for issues with crime and won't prevent street parking. Additionally, the HUGE addition of spaces in all the
	parking lots, but especially in the north lot, makes our little open space the one with the most parking of ANY other open space in the
261 715e8a34-:	02/05/2024 03:30:31.736 system. This will attract way more visitors than the site can and should support.
	Although the paragliding landing zone has been removed from neighborhood parks, what prevents users from landing there? What if there
	are accidental collisions with homes? How will the inclusion affect my home owner's insurance? Also, what is the plan for managing the
	fragile, slow-growing cacti and yucca that grow close to trails that will be widened? These are native plants important for pollinators, but
68 7829f9a3-5	01/23/2024 02:15:42.944 take a long time to grow. I am interested to hear if the city plans on relocating them.
	Appreciate that the Quarry Trailhead and North Trailhead Improvements categorized as high priority. Also appreciate that the "big" trail
	improvements: Park-Peak, Chamberlain, Mtn Bike routes are categorized as high priority.
	Please consider raising the priority on the Paragliding Facilities to high priority (at least medium) priority. Reasons:
	1) limited facilities in other parks
	2) low impact to park; high to users
	3) minimal in cost&scope
166 fd351c86-c	01/31/2024 18:40:38.711And the dog run was a GREAT idea? Why remove?
	As a 26 year resident of Peregrine with direct line of sight to BPOS and owner of property that runs up to BPOS, I am deeply concerned
	about the city's ability to manage increased park usage, both appropriate and criminal. We experience street racing, drug dealing, car theft,
	car burglary and people in the BPOS parking lots at all hours. The impacts of encouraging more usage with no ability to enforce safety
41 4f6f676e-4	01/22/2024 01:32:02.786 cannot be underestimated. How will you staff this need?
190 694105ef-c	02/02/2024 01:10:06.101 As a nearby resident, the master plan looks great! Let's get to work.

	As a neighbor of Blodgett Open Space, I have grave concerns about Blodgett becoming bigger. Its beauty and charm is based on its very
	natural state - please don't ruin it. Also I don't want people crossing into my yard because you've turned this into a Destination, as opposed
	to a simple open space where anyone can hike or bike. No additional parking is required. I'm in that lot all the time, or walking on the
72 c0a89c11-9	01/23/2024 03:04:20.377 sidewalk near the Blodgett entrance, and parking is consistently sufficient as is.
	As a Peregrine resident, I am excited by the opportunities this plan offers for Blodgett access and recreation.
	I do, however, echo many of the concerns about safety and illegal activities that might be present. It's imperative that the city patrol and
	police the area. Otherwise, I look forward to new trails for both hiking and biking!
	Thanks!
276 bf85ec41-a	02/06/2024 16:31:48.547 [contact redacted]
	As a resident of Oak Valley nghbrhd, I oppose the new plan for Blodgett. The infringement on wildlife (specifically Big Horn Sheep) and
	destruction of this open land will have consequences. This entire plan favors bikers with now a ski-slope like color-coded schematic based
	on ability levels is really unbelievable. The two "access points" into our neighborhood (Coldwater and Hollandale) is unacceptable. We
51 1130175b-	01/22/2024 12:48:12.259 can easily foresee the problems ahead. Keep Blodgett Wild - for the benefit of all.
	At least one of the trails from the Orchard Valley Trailhead to the north-south hiking-only trail that's connected to the Chamberlain Trail
	needs to be designated hiking only. Separate trails for hikers and bikers provides a safer and more enjoyable experience for both groups.
	Adding at least a main east-west hiking-only trail to this portion of the trail system will give people the choice of sharing or avoiding the
11 f0b3b31a-4	01/19/2024 20:20:39.787 other mode of traveling.
	Besides the many safety issues for our neighborhood by expanding this space (we're on Sawback Trail across from the North Trailhead), I
	don't understand at all your desire to close 23% of the existing/rogue trails (12 miles of trails). You are opening the space and expanding
	parking, but cutting the hiking trail system drastically to 1.1 mile ONLY of hiking. With the many comments and grumbling made at the
106 b6b9t907-2	01/24/2024 21:56:32.199 Monday, Jan 22nd meeting when you mentioned that, many share my view.
	Pig here cheen behitst will be destroyed by the massive development and paying plans and their survival in this area will be in isopardy
	Big horn sheep habitat will be destroyed by the massive development and paving plans and their survival in this area will be in jeopardy with the area will face with the amount of new people in the area. We know from the level of barassment hig bern sheep
	with the harassment they will face with the amount of new people in the area. We know from the level of harassment big horn sheep receive, being approached and even people trying to pet them, when they are in the Garden of the Gods, that human conflicts are
22 204dEa0c /	receive, being approached and even people trying to pet them, when they are in the Garden of the Gods, that human conflicts are
32 304u3d9t-4	01/21/2024 19:18:01.293 inevitable and will increase dramatically at this critical habitat is developed. Prioritize conservation.
	Big Horn Sheep need to have their area where they live protected. There are other areas throughout our city that is available for
91 2604902E t	recreation.
81 26e48c25-1	01/23/2024 16:13:17.299 Do you want the Big Hirn Sheep to disappear? I and many others love watching them in the environment that they have. Blodgett North parking lot is too large, no guarantees gate will be locked
	-1 mile of hiking only trails is not enough. The bike park will bleed greater numbers into the north Blodgett area which is now primarily
	hiking
	-Impact on wildlife sensitive areas
15/ 1b3a3/t9-c	01/31/2024 17:27:40.121
	POC is ideal for a nature preserve, and people love the idea as evidenced by extensive applause for it at the Elving W meeting. Parks and
	BOS is ideal for a nature preserve, and people love the idea as evidenced by extensive applause for it at the Flying W meeting! Parks and
	Rec claims habitat will be increased by closing social trails while not acknowledging habitat will be lost (and compromised) by the addition
	of many new trails, parking lots, comfort amenities, etc. Keeping the preservation-based original MP and formally creating a Blodgett Open
140 ada60329-	01/29/2024 14:43:39.680 Space Nature Preserve would save \$\$, and help the bighorn survive as a species

	Colorado Springs can be one of the premier mountain bike destinations in the world, yet we don't prioritize cycling infrastructure nearly as
	much as we should. COS constantly loses out to cities like Golden, Salida and Boulder. Mountain biking has significantly contributed to the booming economies in those cities. We could be a world leader here with world class trails and a bike park to host international events if
327 c8998dc0-ł	02/14/2024 18:13:48.751 done correctly. Let's see it happen. Mountain bikers love COS!
	Consistent enforcement in trailhead management. CONSISTENT ENFORCEMENT which needs funding & collaboration with CSPD (reestablishment of Park Police Division); city security with gate closure (earlier) & considerations of increased funding for lighting, cameras. The implementation of specific strategies prior Plan Implementation to address Increased vandalism, nighttime parties,
141 4bb0adc4-;	01/29/2024 20:05:47.249 campfires , litter, dogs off-leash require increased security measures.
267 889bf71c-e	Directional, mountain bike specific trails are an important priority to reduce user tensions and accommodate the reality of existing users. Plans should utilize language such as "designated" and "non-designated" trails when referring to trail statuses. This also reduces user tensions, unlike commonly used terms such as "rogue," "pirate," and "illegal." Many "non-designated" trails are legacy trails that have 02/05/2024 20:45:06.626 existed for decades and don't just pop up overnight.
96 1ac1d4f9-1	01/24/2024 05:22:33.146 Don't do it
451 14de56d0-	Don't put a crapper at Orchard Valley. It's too close to nearby homes, and the smell will waft into the neighborhood. People can poop at nearby North & Quarry lots. 205 08c269ee-ł	02/03/2024 03:51:49.166	Don't put a toilet at Orchard Valley Trailhead! It's a small parking lot with no toilet currently, and it's just fine like that. People can poop at the two nearby big parking lots—North & Quarry. Orchard Valley has backyards 40 yards from the fenceline—Too close for there to be a crapper. Glad to see the access road & amenities are no longer on the Oak Valley Ranch neighborhood skyline. Also, good idea to remove the decrepit barn & shed by the intersection. More hiking-only trails are needed.
206 e08aed40 -1	02/03/2024 03:52:43.373	Don't put a toilet at Orchard Valley Trailhead! It's a small parking lot with no toilet currently, and it's just fine like that. 350 a9e3a426-!	Don't put a toilet at Orchard Valley. It's too close to homes, unlike Quarry & North. The stench will waft to the neighbors' houses, and that parking lot is very lightly used, with no more than a few cars at any given time. Get rid of the ugly barn & shed at the intersection right away. They're unsightly rodent havens. Thanks for keeping the Orchard Valley access road & amenities away from the Oak Valley Ranch neighborhood skyline. More hiking-only trails are needed, with less mountain biking.	
334 64612c31-∷	Don't put a toilet at Orchard Valley. It's too close to residences and lightly used by non-locals. Good to see it limited to 15 parking spots. Remove the decrepit barn & shed ASAP. They're havens for disease carrying rodents. Thanks for keeping the Orchard Valley access road & amenities away from the Oak Valley Ranch neighborhood skyline. Place more emphasis on hiking-only trails & less emphasis on mountain biking. Hikers are the vast majority of Blodgett users.	
632 76476796-:	Don't put a toilet at Orchard Valley. The disgusting toilet smell will permeate down into the nearby neighborhood like the awful smell of marijuana smoke from the parking lot currently does. Nice to see Orchard Valley Trailhead limited to 15 parking spots, as it's very sparsely utilized. Will also be nice to see the decrepit barn & shed by the intersection removed—They're eyesores. Thanks for keeping the Orchard Valley access road & amenities away from the Oak Valley Ranch neighborhood skyline.

289 0c1dc547-(on mountain biking. Hikers are the vast majority of Blodgett users.
		Don't put a toilet at the Orchard Valley Trailhead—It's too close to nearby houses. Keep toilets limited to the North & Quarry Trailheads. Those trailheads are far enough away from homes for toilets. Thanks for keeping Orchard Valley limited to 15 parking spaces, and keeping
		the access road & amenities away from the Oak Valley Ranch skyline. Also, good idea to remove the rodent infested barn & shed by the
173 c0d37bcb-(intersection. Place more emphasis on hiking-only trails, not biking-only trails.

263 01abf49e-c	Don't put a toilet at the Orchard Valley Trailhead. There are rarely more than 3 cars in the parking lot, and it's very close to nearby homes. In fact, the south fenceline is only 40 yards from neighboring backyards. People can utilize the toilets at Quarry & North TrailheadsThose two trailheads are away from homes and better suited to toilets. Great to see that the Orchard Valley access road & amenities are no 02/05/2024 12:56:24.854 longer on the Oak Valley Ranch neighborhood skyline.
	Focus on wildlife enhancements (corridors, buffer zones for recreational use, noise ordinance)
	Sustainable trail design (use of switchbacks, avoiding sensitive areas, less neighborhood access and more focus on main trailheads and common areas)
	Parking (less space used in favor of street parking opportunities)
	Education (importance of various ecosystems, value of silence for wildlife observation, etiquette that prioritizes access and safety)
4 b5f29ac5-5	01/18/2024 18:29:32.466 Restoration (ongoing efforts, community engagement)
255 2d879dc5-!	Good things: 1) Orchard Valley Trailhead limited to 15 spots, 2) Removal of ugly barn & shed by the intersection, and 3) Moving Orchard Valley access road & amenities away from the Oak Valley Ranch neighborhood skyline. Bad things: 1) Toilet at Orchard Valley—It's minimal 02/05/2024 03:13:19.207 utilized & too close to homes, and 2) outsized influence of mountain bikers when hikers are the vast majority of Blodgett users.
148 26e3bc3c-(Good to see the Orchard Valley Trailhead parking lot scaled back to 15 spaces. Also good to see the decrepit barn & shed near the intersection being removed, as they are just plain ugly eyesores. I'd rather see no toilet at the Orchard Valley Trailhead, because it's very close to nearby homes. At least the new plan moves the toilet (and access road) further north, away from the Oak Valley Ranch 01/30/2024 13:14:36.819 neighborhood skyline. Place less emphasis on biking-only and more emphasis on hiking-only trails.
	Great to see the Orchard Valley Trailhead parking lot limited to 15 spacesThere's rarely more than 3 cars there. Also great to see the access road & amenities no longer on the Oak Valley Ranch neighborhood skyline. Remove the decrepit barn & shed near the intersection ASAP! They're nasty eyesores that no doubt are full of mice. Don't put a toilet at Orchard Valley. It's too close to nearby homes, unlike the 02/05/2024 13:03:38.845 North & Quarry Trailheads. Place more emphasis on hiking-only trails
	Great to see the that Orchard Valley Trailhead access road & amenities are no longer on the Oak Valley Ranch neighborhood skyline. Also good to see Orchard Valley limited to 15 parking spaces, along with the removal of the eyesore barn & shed. There should be more emphasis on hiking and less emphasis on biking. Hikers are the vast majority of users. There shouldn't be a toilet at Orchard ValleyIt's 01/31/2024 23:03:57.605 just too close to nearby homes. Limit toilet locations to the North & Quarry Trailheads.
	Having delineated parking spots in the trailhead parking is important. Design and construction of trailhead parking should be sure to include delineation of spots, whether the lot is paved or unpaved. If lots are unpaved, they need some improvement, like gravel. The current South Blodgett trailhead has a very rutted access road that is very slippery mud after rain. The ruts make it difficult to drive into

		How and when will we be notified of USFS activities? The potential for blodgett in my opinion relies on their support in connecting trails to the master plan trails.
		If you hike up the uphill only trail and don't paraglide or bike down, there is no way down. Connecting to national forest would help
98 35a1411a-(01/24/2024 15:19:59.114	Who will construct the bike trails? Choosing the right trailbuilder or wrong one can really make or break the bike trails.
105 553876a8 -1	01/24/2024 18:38:32.980	I attended the Blodgett Open Space meeting on January 22. 2024 and found it disappointing. All of the material presented by the speakers was already available online prior to the meeting. No opportunity was provided for audience input or questions during the meeting. I do not think the trail plan is adequate. Multi Use and Bike trails were given priority over Hiking Only trails. In fact, there is only a single 1.1 mile hiking-only loop trail in the entire plan. [contact redacted]
		I agree "No Parking" street signs should be put up along Centennial to maintain the integrity of the clearly marked bike lanes and request strict police enforcement with tickets and towing be employed if violations occur. That would mean police would have to patrol this area regularly. If city can't assure enforcement of no-street parking, then expansions of the parking lot makes sense and should not be undertaken.
130 c0a1b0a5-9	01/27/2024 21:53:26.776	
410 17ef61d2-8	02/18/2024 16:12:55.853	I am concerned about the plan for reducing the dedicated trails for hiking
168 1e03c18c-ł	01/31/2024 19:40:21.856	I am confused by the approach to bring Universally Accessible Trail design to a rating of black and/or double black (I assume for mountain biking)? After reviewing the BOSMP draft, it strikes me odd that this is a consideration, as the city may need a renewed focus and a better understanding on why one-way, purpose-built mountain biking trails (especially with double black difficulty ratings) are in such high demand today. I believe that this user group may be under / misrepresented.
		I am particularly interested in being able to go everywhere in CO Springs by bike. The public notice is about building trails, but doesn't provide a lot of details. I hope they will be multi use trails allowing all kinds of non motorized uses, even dispersed camping. It's right next to a national forest anyway. The new trails should have maps and trail markers along them. For bicyclists, you may want to consider how
5 439b5255-	01/18/2024 20:34:47.895	the trials would "link up" with other MTB trails.
88 1b5a4081-!	01/23/2024 21:56:04.653	I am shocked that the plan is calling for an increase of parking spaces by nearly ten-fold! That seems absolutely absurd, given the residents' concerns related to traffic, overuse of trails, garbage/litter, and fire safety ramifications by the increased numbers of people in the area. Having lived through the Waldo Canyon Fire, residents are extremely concerned about this latter piece with good reason. Also, the police department cannot adequately police the parking areas for drinking/drug use.
		I am strongly opposed to the Blodgett Open Space Master plan. I believe the space should remain as it is now without adding bike trails and all the extra parking spaces. This plan will without doubt lower our property values, add a major amount of congestion, and be a security
319 cd410f08-a	02/12/2024 20:32:17.330	risk for the neighborhood.
		I am very concerned about the amount of parking spaces being suggested. The amount of parking appears inappropriate for our neighborhood community. It would certainly decrease property values and the aesthetics of this beautiful area.
		We have had our share of wildfires and egress from this neighborhood was challenging at best. To add more congestion could be devastating.

135 52e4781c- 01/28/2024 19:34:58.706 The park system should not note the entrances to the trails that abut private property, this should be removed.

93 1b7cddf2-k	I am very concerned about the status of our native Big Horn Sheep herd, and believe we should do everything we can to preserve space for them over creating more mountain biking and "recreational" areas for humans. We have miles of amazing trails for hikers and mountain bikers alike already. I'd prefer to see funds used to preserve this space for the sheep, and anything left over go to maintaining the pre- 01/24/2024 04:18:03.790 existing trails, parking lots, and other amenities. Do not expand Blodgett for humans.
108 a7a6b600-(I ask that the social trails on the National Forest adjacent to Blodgett OS (Fenceline, Douglas Fir Trail, Blodgett Peak trail) remain open until a future trail system is built that provides equal or better access for long excursions in Pike NF. Overall I have been very impressed with how the master plan process has solicited all types of community feedback and created a master plan that balances the needs and wants of 01/25/2024 04:00:02.179 many different user groups, and I look forward to plan's implementation!
422 - 720-520 -	I believe this master plan has deviated so far from the original master plan set forth in 2002 it is unrecognizable. *Paragliding goes completely against the original vision of this open space. *Closing what appears to be lower red squirrel trail due to habitat preservation but proposing a paragliding landing site in another "habitat" preservation area. *Maintenance and management of this expanded system. It is mediocre at best currently.
132 e730c520-; 143 19812ef0-c	01/27/2024 22:38:15.936 *Consistency opening and closing parking lot. 01/29/2024 21:50:59.422 I believe we need to PRESERVE remaining habitat for wildlife, like Bighorn Sheep.
145 19812010-0	01/29/2024 21.50.59.422 T believe we need to PRESERVE remaining habitat for whome, like bighorn sheep.
104 dba776e8-ı	I can't believe that the committee did not listen to the negative comments made at the Oct meeting and change these plans. Why are you not listening to the people that live here? The cost is so high so why are you not putting this money to buy more land for more parks in the city especially with the recent influx of people moving here. This is clearly an agenda for a minority of the population here and it does not 01/24/2024 18:28:19.428 even serve well those who want to walk without dodging bikers. Shame on all of you
112 408e0d16-	I continue to ask for a copy of any formal wild life impact study. Why is this plan moving forward without one? Please explain our direct me to a place I can read the study. This line in your plan really concerns me. The USFS cannot commit resources to performing the above 01/25/2024 16:51:32.564 stated compliance within the City's Blodgett Open Space Master and Management timeframe
	I continue to be perplexed why we are not making Blodgett a formal nature preserve rather than an enhanced people park. I have asked for a copy of what ever formal wild life impact study that has been done but have yet to receive that or been directed to where I might find
102 759a0d77-;	01/24/2024 18:19:33.995 it.
338 c8104e75-!	I could not find update in the Master Plan about the entrance location of the Orchard Valley Trailhead or about installing a 4-way stop sign at the intersection of Orchard Valley & Centennial; A 4-way stop there would be problematic, especially for cars coming up the steep hill on Centennial; it would be much better to keep the trailhead entrance where it is (a little bit north of Orchard Valley) and to keep just the one 02/15/2024 02:24:27.880 existing stop sign at the Orchard Valley & Centennial intersection.
291 cfb0d7c1-9	I disagree with labeling of trails as "Rouge" or "Illegal". These trails existed prior to City ownership and are not "Rouge" or "illegal". The language used is important and these terms seem to draw conclusions about these trails and existing trail users. Please remove these 02/08/2024 21:26:03.024 terms from the Master Plan. As a mountain biker it feels like these terms are being used to cast mountain bikers in a negative light.
115 d59347b6-	I don't approve of this plan as it interferes with the bighorn sheep's migratory pattern. This plan could very possibly endanger the viability of the animals. They are very important to our state and to all who care about wildlife. The mts should be off limits to develop I also think this is a stupid idea due to how many parking spots, and thereby cars, will be driving through an established neighborhood. 01/26/2024 18:06:11.742 If this is allowed to go through, then Ute Valley Park needs to be closed to ALL bikers!

33 d00b2701- 01/21/2024 19:39:58.340 I don't support continued development of this space due to the impact it will have on wildlife. I support keeping this area as wild as possible

	I feel all concerns were well-addressed. I'd just like to say that I'm in agreement with those who feel the hiking only trails are much too
	short to make any difference. For most hikers, a short trek is around 3 miles; average would be 5-6. Half-mile sections do nothing to
	02/12/2024 19:37:36.125 prevent user conflict. I've already given my input in support of expanding the North parking lot and (hopefully) getting our bike lanes back!
25 707a29a9-(01/21/2024 17:33:50.381 I feel it will impact our big horn sheep since they reside close to the area that is being discussed.
	I frequently hike in Blodgett Open Space and there are always a lot of hikers there. Please don't take away popular hiking trails and give
	them to bikers. The best solution would be to add new biking trails and leave the existing hiking trails for the hikers. That way everyone can
97 fbe0d998-6	01/24/2024 14:58:21.783 enjoy the space without creating conflict.
	I have serious concerns about the impact to the resident Bighorn Sheep population. Classified as a sensitive species, I cannot understand
	how the development of this area will not have a serious impact on the herd, its health and wellbeing. This is not the city that I love. Leave
	the Westside and the wildlife that inhabit the area alone. The desires of a few do not outweigh the costs. What are you trying to accomplish here
38 a7153050-:	01/21/2024 22:03:52.983 This should remain open space. Mountain bikers have Ute Valley.
50 07 155050	I heard through grapevine there was a meeting at Trace Church Monday Jan 22 for feedback on the master plan. Why was this not on the
	website, or emailed to those who like me have repeatedly given their contact information via the website and at other info meetings like
	that at Flying W? I am concerned the mountain bike lobby is the primary voice being considered in the construction of the Blodgett Open
139 52e780a5-(01/29/2024 03:00:37.602 Space master plan.
	I hope there's not a smelly toilet at the Orchard Valley Trailhead. At least if there is, keep it at the north part of trailhead away from the
	Oak Valley Ranch neighborhood skyline. Please do remove the ugly barn & shed near the intersection. Please keep the access gate at
	Orchard Valley closed from dusk to dawn to reduce the amount of loud noise and nefarious activities. It's a popular place for drinking,
152 ba94f5e1-f	01/31/2024 01:17:42.005 drugs, fireworks, and very loud music (if you can call it that).
	I hope you reconsider the parking situation in the North Blodgett Peak Open Space to accommodate just 20 additional spaces (adding to
	the 11 existing) and if needed increase the lower Orchard Valley lot to balance the parking at the North lot expansion with Orchard.
	Integrity of neighborhood, safety of children at the many bus stops on Centennial, & property values are at stake with increased traffic,
131 2bd2ff5e-4	01/27/2024 22:03:23.796 noise and congestion. All parking lots should be equally well marked
377 d28f31db- 1	02/16/2024 19:34:47.356 I like the idea of a stop sign at Orchard Valley, but would prefer to see a roundabout there.
	I live near the north trailhead and walk it multiple times per week to the tune of 500 miles in 2023. My observations are that lack of rangers leads to lots of dog excrement that is not touched in the winter, left in bags in the summer. Graffiti on trail makers, trash along
	Woodmen and night time parking. I have seen all sorts of trash, used condoms and other types of trash. Expansion will only make this
321 4b68bd48-	02/12/2024 20:57:04.530 worse and impact the area we all live and love. Night time speeding will increase too.
022 10000010	
	I moved to Mountain Shadows because of the natural beauty and wildlife. Turning Blodget Peak into a recreation area is unnecessary and
	destructive to the wildlife. It is currently quiet, peaceful and even though we have invaded this area, the wildlife is still able to roam in
	peace. These plans change this. I've seen plans for hang gliding which is dangerous with the high winds here. I live at the top of Wilson
78 8f0399d0-2	01/23/2024 14:24:33.768 Road and the winds here are regularly as strong as they are at the Air Force Academy.
	I oppose this plan. We need to keep our wild places wild!! We need to protect our wildlife! We are blessed to have the beautiful herd of
19 5b8876d8-	01/21/2024 15:59:19.380 big horn sheep in our midst! Why would the city do anything to jeopardize their existence?!!
20 d8c/2add-4	01/21/2024 16:44:01.709 I opposed to this development because it is harmful to the environment and danger the population of the bighorn. Please stop.

	I own a home very close to blodgett and am an avid mountain biker there multiple times per week. Im concerned about losing fenceline
	trail and the plan is not specific about keeping as close as possible eventhough during all these public events, it was made clear that it's a
	priority of the public. I also feel the quarry was proposed as a bike park before it was purchased and That is the preferred use. Restoring it
314 c3607623-	02/11/2024 19:48:19.971 would be very costly. Putting in advanced trails is easier and ideal.
	I remain concerned that Blodgett will become a big biking destination rather than primarily a hiking one - especially the north area with its
	oversized lot which is way too big for the small area it serves. Without ticketing, it won't solve the problem of street parking either. The
	north area trails are easy to degrade and heavy bike use instead of hikers will degrade them faster. I'd like a smaller lot with gate and
262 50cd5867-{	02/05/2024 03:37:43.202 cameras for safety - not as an afterthought when money "may" come available.
	I served on the SAC. It's become clearer to me that in the SOUTH portion of the new BOS plan, the wishes of Mountain Bikers and even
	Paragliders have been listened to, prioritized, and granted. BUT the voice of HIKERS has NOT been listened to well. Could we have just one
	HIKERS-ONLY TRAIL in the South part? E.g, right behind Coldwater & Front Royal Dr. There are many hikers who use BOS. Multi-use trails
323 d5de972a-	02/13/2024 13:21:37.827 for hikers are not satisfactory. PLEASE BE FAIR & HEAR OUR VOICE TOO. Ron Goerzen
	I STRONGLY APPOSE new master plan!! The CURRENT Mstr Plan states: The 1997 Open Space Plan targeted Blodgett Open Space as a
	candidate area for conservation because of its location in the foothills & diverse plant communities &
	valuable wildlife habitat. It was the ONLY such area in the N.W. area of the city on the Open Space Master Plan. Blodgett Open Space also
	falls within Queen's Canyon, 1 of 3
237 10b1d7e3-	02/04/2024 16:29:07.082 CRITICAL preservation candidate lands identified in the 1998 Front Range Mountain Backdrop Study.
	I strongly oppose this new plan. Keep Blodgett wild! There are plenty of other places for your plan and this area is fhe only place we have
67 b196dc5a-(01/23/2024 01:23:49.014 Big Horn Sheep. Why allow this to be destroyed?
	I think Colorado Springs could benefit from more nice dog parks in the western area! Even a small fenced areas for unleashed dogs would
37 bc989f2c-f:	01/21/2024 21:56:00.506 be amazing.
	I think it is naive to have this master plan without reference two other master plans. First would be the plan for roadways, specifically
	Allegheny (from Centennial Blvd west to the Quarry Parking Lot), Centennial Blvd from Allegheny to Vindicator. Vindicator from
	Rockrimmon to Centennial and Rockimmon (West/East or South) from Vindicator to the Pikes Peak Greenway. There should be safe bike
113 6c337c78-4	01/25/2024 19:58:04.900 routes with limited speeds. Second, there needs to be a master plan for Quarry once ownership changes.
115 00557078 (i think the Master Plan for Blodgett is excellent! I wholeheartedly approve the balance it strikes. The sheep will just migrate to nearby
52 0c3741c9-k	01/22/2024 12:51:07.650 areas as needed to survive.
JZ 00374103-1	I think there are other places you could build on we need to stop running the wildlife out of there space they need have some where to go
36 381b1b8d-	01/21/2024 21:35:30.856 or they will end up I. Your back yard because there's no where for them to go .
20 20101000-	I would like to see a firm commitment to providing year-round restroom facilities at each parking area, and with that commitment to
	eventually make those restrooms permanent year-round facilities and not temporary porta-potties.
	The concerns from the neighbors about bathrooms are ridiculous. Where do they expect people to relieve themselves if restrooms are not
	The concerns from the neighbors about bath ooms are nulculous. Where do they expect people to relieve themselves it restrooms are not
6 0286622 ·	01/10/2024 02:52:01 266 provided?
	01/19/2024 03:52:01.366 provided? 02/01/2024 11:59:31.990 I would like to see more black-diamond level mountain bike trails in the park.

	I would like to stress the need for:
	* adequate lighting of the parking lots
	* earlier closing hours for this open space (vs. city park times) to lessen impact to wildlife
	* timely closing of the gates when the open space is closed
	* appropriate no parking signage for nearby areas
186 eb66902c-!	The existing Blodgett Open Space is an after dark nightmare for those of us who live nearby. Open campfires, overnight camping, actual 02/01/2024 21:34:26.177 wildfire, fireworks, street racing and a stolen car drop-off have all occurred.
75 1aaffd09-ci	I would like to voice my opinion, as a resident who backs up to Blodgett Open Space and someone who is an avid endurance athlete, that I am in favor of the open space development project. Between the focus of preserving wildlife and creating both biking and running/hiking trails, it's an excellent use of our community's land. I recommend that if speeding is a concern on Allegheny, due to increased traffic in the 01/23/2024 04:32:36.401 area, that speed humps also be installed.
75 200H005 0	I would love for the space to be made in tandem with Ute. As a big mountain biker, I have no problem sharing trails with fellow hikers. I
	love the Fenceline trail, and plans to incorporate trails for all levels (just like Ute has green to black trails) would really make this part of El
315 01efc50b-1	02/11/2024 23:04:13.833 Paso county shine for all members.
	I'm against the development of Blodgett open space, as a local in the neighborhood. The Bighorn sheep need to be considered. No, to
91 b7b5a78e-	01/24/2024 03:34:46.174 developing Blodgett Open Space.
	I'm asking to lower parking by -100 stalls. Show 80919 citizens opposed to Blodgett's development, you're taking our safety concerns
100 8fcacb38-5	01/24/2024 16:26:17.468 seriously.
69 a1060d02 -!	If CSPD already has increasing emergency response times, where will the staff come from for the 'security audits'? how will paragliding impact homeowners insurance, and what will happen if ppl miss the landing zone and hit the parks or houses? there are many native cacti and yucca on the trails and next to oak valley ranch park. i'd like to see the plan address how these will be protected or rehomed as trails 01/23/2024 02:15:44.847 are widened. their flowers are one of the highlights of this landscape.
09 81000002-	If the trails and recreation can be designed in a way that promotes sustainability and promotes a healthy relationship between all
553 1e8f9dda-c	02/19/2024 01:06:32.052 recreation groups, I personally have no concerns with the plan.
	If you continue with your current plan for this land you will be ultimately destroying the birthing grounds, grazing grounds and sanctity of
74 42240407	the bighorn sheep in this area. They are very prevalent on the property and you've been given more than enough evidence. To ignore the proof you've been shown of these bighorn sheep would place you in direct violation of federal laws that prevent developers from prioritizing capital gain over species survival.
74 d3248497-	01/23/2024 04:05:16.139 Apathy and capitalism or your humanity.

144 b9ddeefb-S	I'm very pleased to see the changes to the plan for the Orchard Valley Trailhead parking lot. In particular, the movement of the toilet away from the Oak Valley Ranch neighborhood skyline is very much appreciated. Also glad to see that the Orchard Valley Trailhead parking lot is 01/30/2024 00:59:33.022 staying at 15 spaces, and that the decrepit barn and shed near the intersection are being removed. They are eyesores and rodent havens.
	Increased parking capacity at the main Blodgett trailhead will lead to more traffic, including those to use it for criminal activity. Regular security and police monitoring needed. Lack of gate closures during off hours at the current parking lots gives me no confidence. Automatic closing gates should be required. Reduction and reallocation of the hiking trails at the main Blodgett trailhead distressing for local residents. A significant portion of trails need to remain dedicated to hiking.
678 c81f75b3-C	02/19/2024 03:47:56.125
189 65ec263a-1	Instead of vague terms like 'rogue', 'pirate', 'illegal', and even 'social', why not adopt the terms 'designated' and 'non-designated' trails. First, 'designated' and 'non-designated' are accurate terms that refer to the legal status of a range of trails that might have human or non- human origin. Second, 'designated' and 'non-designated' do not express emotional content that can cause offense and create barriers to 02/02/2024 00:26:14.369 collaboration.
	It appears that Mountain Bikers have lost access to the whole north side of Blodgett Open Space while Hikers have access to both north
3 2b3a1c2f-7	01/18/2024 03:32:32.856 and south sides of the open space. That is not equitable.
119 2a215efa -d	It is difficult for hikers and bikers to share single track and many of us hike with dogs. 99% of use on these trails are hikers and now you want to designate the widest and least serene trail as hiking only. I was hiking yesterday at noon and came across 4 e-bikers. Signs are clearly posted that this is not allowed, but everyone knows there is no way to enforce it. PLEASE create more single track hiking trails and 01/26/2024 21:44:36.139 consider closing trails to e-bikes. Ebikes should only be at the quarry.
312 e6a04359-:	It is essential to designate some downhill bike-only and uphill bike-only trails as identified in the proposal. In addition, hike-only trails should be implemented as well. Both groups (I do BOTH) have legitimate complaints about "the other user groups doing x,y,z, etc). Designating some % - doesn't need to be a lot to the hike and bike. It 02/11/2024 18:48:05.893 will acknowledge those concerns and give the opportunity to participate in those specific areas. Equestrian could be another area. It is hard to discern from the high-level maps, but it appears that the Red Squirrel trail off of the North Trailhead may be slated for closure; that would be a mistake as it is one of the best trails overall and provides good connectivity into the Forest Service land for gaining access
332 81f29e93-5	02/14/2024 19:07:36.484 to the Blodgett Peak ridge line; Please don't close it.
	It would be great to see park rangers or officials at least once in a while at Blodgett and other parks. I know they can't be everywhere, and surely I've missed them, but I've never seen them, even at more populated parks. By just sitting in parking lots once in a while, they could help parks be a safe, enjoyable space for everyone and educate those determined to break the rules immediately (let their dog off leash by
58 7694a361-	01/22/2024 19:05:25.674 the on-leash signs, leave dog bags in the trail or tossed into the forest).
379 0d8fc31d-C	02/17/2024 14:39:31.992 Keep Blodgett Wild
48 1dbf211e-a	01/22/2024 04:12:07.801 Keep this open space undeveloped for wildlife, esp. for the bighorn sheep
309 7c8ded84-(02/10/2024 17:58:18.296 Leave Blodgett Peak alone.
24 45f6d2c8-4	Leave it alone! There's enough expansion that's unnecessary and really quite ridiculous. 01/21/2024 17:33:38.727 We SHARE this land with the wildlife. Keep CO natural!!!!
54 2248b51a-	01/22/2024 15:24:10.420 Leave the space as is. It doesn't need to be developed.
51 22 1000101	

		Less biking, more hiking-only trails. The first order of business should be to remove the rodent-infested barn & shed at the Orchard Valley
		Trailhead. They're eyesores that need to go. Don't put a toilet at Orchard Valley. It's too close to homes and very few people who don't
		live nearby use that trailhead. People can take their dumps at the nearby North & Quarry Trailheads. Good idea to keep the Orchard Valley

146 c53d513e-(01/30/2024 01:38:50.14	5 Valley Trailhead parking lot at 15 spaces.
	Many voices who cherish this space are still not being heard. The trails are being taken away from hikers and handed over to mountain
	bikers. Please let us continue to enjoy this beautiful land quietly and on foot! The addition of over 200 parking spaces will overwhelm these
	trails, and everyone will be put at risk of injury if the majority of these trails are multi-use. Furthermore, bikes racing down these trails will
	7 scare away the precious wildlife that live here, including the bighorn sheep.
329 ad6cf4f8-8: 02/14/2024 18:19:24.55	2 More mountain bike specifc trails!!
	Mountain biker here. Please leave Fenceline intact. If there was another fast, fun, challenging downhill trail, that would be stellar.
316 eef6919a-C 02/12/2024 01:00:13 70	5 Would be really great to have bike specific trails. We got tens of thousands bikers in this city. They need dedicated trails.
510 66105158-0 02/12/2024 01.00.15.70	
	Mountain biking is an incredible economic driver. I, and many like me, can foresee Colorado Springs leading the nation in mountain bike
	destinations. We could have the focus of the world on Colorado Springs with international Mountain Bike completions such as World Cup
	Downhill and Cross Country races. It is all so attainable, please do not let HOAs and bitter neighbors limit access to the great outdoors for
326 fc0ca5ac-d! 02/14/2024 17:50:50.13	3 all who enjoy it, especially for those who pursue happiness on two wheels.
	My concern is that the term, "Rogue Trails" is misleading. Most of these trails are in fact, "pre-existing" trails used by the prior owners.
	Some may be of value and some may need to be closed. None of that requires this loaded language to be used. Please remove this
193 81bec18e-1 02/02/2024 15:23:14.02	3 unwelcome rhetoric from the proposal.

122 69b58f53-(01/27/2024 20:19:28.168	My first concern is that some decisions are being made based on assumptions that are not valid. For instance, one of the city staff at the neighborhood meeting told me that they were hoping that the biker-only trails will draw bikers away from the multi-use trails. I saw a biker place a comment on one of the boards at the meeting that the multi-use trails were very important to him. That tells me that he plans on riding his bike on them, regardless of the existence of bike-only trails.
325 e3804ce7-(02/13/2024 19:13:31.242	My home is one of the nearest to the north trailhead parking lot. We already experience nefarious activity in and around the parking lot (late night parties, street racing on Woodmen Rd by the parking lot, illegal hiking after park hours, illegal fireworks, etc.) and believe that the proposed expansion of the parking lot will only exacerbate the situation. The existing rules need to be enforced, and we've requested assistance from CSPD but still experience nightly issues.
		 My interests: 1. Adequate restrooms (CLEAN outhouses with toilet paper ok) at every parking location. 2. Adequate parking everywhere. 3. Bike racks 4. There should be various locations where a person in a wheelchair or a person with balance/falling issues can safely roll or walk at least 2 miles RT - some benches should be included as well - this means smooth trails without rocks. 5. Trails for more serious hikers should have some basic maintenance, and trail maps. 6. On bus route
14 9226ffc5-9	01/20/2024 00:07:19.996	
2 3d39c5ab-1	01/18/2024 02:40:39.901	My issues have been addressed but I'm concerned that fire mitigation isn't in the top priority list. We are all still traumatized from Waldo Canyon and this issue needs to be addressed. Also I really hope we can just remove the paragliding thing entirely. We don't need random tourists dropping on top of our houses. Thanks!
84 a2fe0a3d-e	01/23/2024 19:18:30.728	My name is [contact redacted]. I live on [contact redacted] directly overlooking the North parking lot. I strongly oppose expansion of the North lot to the 51 spaces currently proposed. Due to the topography of the area, we can hear people talking in the parking lot if our windows are open. Increased lighting to mitigate security concerns negatively impacts our view of the city and will certainly result in decreased property value. The current streetlight attracts parkers rather than deters them.
		My personal opinion is that this plan is out of control. The roads and neighborhoods will not be able to handle the traffic, and nor do we weant it.
324 153aa4ff-d	02/13/2024 17:24:51.608	Please continue to treat Blodgett as a conservation area. You can never go back and undo what you are about to do.
127 fcbb012d-2	01/27/2024 21:24:15.243	N Blodgett Peak Entrance can't absorb 51 which is 4X its size now! Achieving land to parking spot ratio from 0.4 to 6.0 is NOT appropriate for small land watershed area with highest fire risk in the park & proven fire evacuation issues! Attracting too many people is NOT good park planning. If more parking spaces needed Orchard Valley (1 mile lower) is safer to evacuate quickly. Allegheny, of course, can be expanded if required. Your allocations on parking I believe should be more equitable.

No additional considerations although we are completely against the additional recreation changes. There are many many areas for out door recreation in this beautiful city. It would be nice to leave a few areas for the wildlife they struggle as it is with the uncontrolled construction. Thank you

			Trails feeling like trails
32	10 d0c35f7a-9	02/10/2024 23:40:00.181	Instead of dozer created walking highways like at Red Rocks and Garden of the Gods.
			Official Environmental-Ecological Study of the proposed areas of 'trail development' and bike park-quarry area. The Big Horn Sheep in the
ŗ.	57 b54f760d-3	01/22/2024 18:50:37.376	area are to be protected in the 'Open Space.' A 'migration corridor' does not properly address this issue.
			One of my most pressing concerns appears to have been addressed. Specifically, I considered the proposal to install a traffic light at the
			intersection of Centennial & Orchard Valley to be ill advised. The approach to that intersection from both streets is quite steep & requiring
			traffic to stop, especially on Centennial, when the streets are snow covered or otherwise slippery, would be courting numerous collisions
16	63 da8c2d75-4		when vehicles could not be stopped for the light.
	31 d344a13d-		Oppose plan, preserve Bighorn Sheep
	51 05440150		Orchard Valley Trailhead
			- No Toilet
			- No Lights
			- No Equestrian access or trails
			- Preferable walking only trails
	77 fo - h 40 - C - C	04/22/2024 05 54 54 522	
	77 f8cb49c6-9		All of these would detract from the neighborhood well being
			Overall, I like the direction the master plan is moving, particularly adding several purpose DH bike trails. The only concern I had was the
			changing/removal of the social trail known as Fenceline. While I know that some changes must be made to accommodate the new
			improvements. I think that it would be awesome to keep as much of the current trail as possible, its very popular for a reason and would be
32	13 233ed09a-(02/11/2024 19:14:20.275	missed by many bikers in the community if it is totally removed/changed.
			People come here for the beutiful spaces here, wasn't to long ago and they were trying to do this at Gardan of the God's. It would be
4	46 6e5ffc9c-cc	01/22/2024 04:04:15.844	terrible if you did this, it can't always be about the money. Thank you
			Pg 48: Regarding the language describing the bike trails:
			-I would appreciate seeing language about optional features
			-no details on signage or other features indicating bike only trails The cattle guard roller at the bottom of chutes seems to work
			Pg 72 "Phase 3 Implementation: "As data indicates, consider restricting public access"
			Very vague.
1	21 0d435686-		Pg 79 one of the bike only trials is a blue/green? Ideally blue trail with ride-around options so that a beginner rider could ride down.
14	21 00433000-	01/21/2024 13.00.11./21	

		Place less emphasis on mountain biking-only trails and more emphasis on hiking-only trails. Hikers make up the vast majority of Blodgett users. Excellent decisions to scale back the Orchard Valley Trailhead parking lot to 15 spaces, along with removing the hideous, rodent haven shed & barn by the intersection. There should be no toilet at Orchard Valley due to it's close proximity to nearby homes. At least
149 e83b7297-	01/30/2024 13:20:00.951	the new plan moves the amenities a little further north at Orchard Valley.
280 c4a101e4-1		Please — No toilet at the Orchard Valley Trailhead! It's way too close to nearby homes, unlike the North & Quarry Trailheads. Also, the sooner the better for removing the ugly, rodent-infested barn & shed near the intersection. Thank-you for keeping the Orchard Valley access road & amenities away from the Oak Valley Ranch neighborhood skyline. There should be more hiking-only trails and less emphasis on mountain biking. Hikers are the vast majority of Blodgett users.
281 c45a7bcc-3		Please — No toilet at the Orchard Valley Trailhead! It's way too close to nearby homes, unlike the North & Quarry Trailheads. Hikers are the vast majority of Blodgett users.
		please consider putting in trails that are wide and smooth enough for strollers, mobility scooters, wheelchairs, etc. it would be nice if
136 1e54b196-	01/28/2024 22:15:27.946	those trails were scenic and had mild changes in elevation
79 a037fd84-1		Please consider the ramifications this project can have on not only the scenic beauty of Blodgett open space but also what this means for encroaching on the areas protected wildlife. There are so many other options for recreation in the city, unused and wasted office buildings for example. Please leave Blodgett wild
		Please do not add a parking lot at the main Blodgett entrance! It would ruin the character of Blodgett by having cars inside the space. Plus, IT's NOT Needed. I live near Blodgett, and sure, there are cars along the road, but that's not a problem! NO parking in Blodgett!
73 d6896b56-	01/23/2024 03:34:13.940	Finally, keep Red Squirrel the way it is. Don't take away a truly unique trail.
30 8a57d264-	01/21/2024 18:31:24.548	Please do not change it from open space. We are losing out open space everyday to these greedy builders. #donottakeouropenspace
71 0e8518d9-:	01/23/2024 03:01:00.575	Please do not destroy this lovely parcel of land. There are so many miles of trails throughout Colorado Springs, not every piece of land needs a makeover. Take a look at why the TOPS money was used to purchase this in the first place. It was to preserve the area.
11 06921903-		Please do not develop Blodgett Open Space. This has been and continues to be the habitat of out Big Horn sheep. It is vital that their
61 3885465c-:		habitat not be destroyed by parking lots, etc. Surely another space can be found so as not to disturb these magnificent creatures. So much nature has already been destroyed in COS. Please preserve the home of the Big Horns?
44 1482dcdd-		Please do not develop more parking and recreation/bike trails. Preserve for wildlife and birds.
44 148ZUCUU-	01/22/2024 02:42:04.822	riease do not develop more parking and recreation/bike trails. Preserve for wildlife and birds.

	Please do NOT expand the north entrance (main entrance of Blodgett) parking area. Yikes. There's plenty of parking - I park in the lot and
70 8076 a20h (occasionally on the road (legally) with no problem, weekends and weekdays. There is no need to ruin a beautiful walking area when I've 01/23/2024 02:55:35.213 never had a problem parking! What a desecration that would be. This is a beautiful and still natural space. PLEASE leave it alone.
70 8976c20b-(Please don't develop this area. The big horn sheep are quickly running out of space and will soon be a thing of the past if they aren't taken
43 3d600603-	01/22/2024 01:55:20.438 into consideration now. That would mean that it had to remain undeveloped.
45 50000005-	Please don't put a crapper at the Orchard Valley Trailhead. It's too close to nearby homes. At 15 parking spaces, it doesn't have a crapper
	now and is just fine without one. It rarely has more than 2 or 3 cars in it. People can take their poops at the nearby North or Quarry
	Trailheads. It'll be nice to see the removal of the rodent haven barn and shed by the intersection. Good idea to keep the Orchard Valley
216 eb635eca-4	02/03/2024 22:37:25.114 access road and amenities away from the Oak Valley Ranch neighborhood skyline.
	Please don't put a toilet at the Orchard Valley Trailhead-It's too close to residences. The North and Quarry Trailheads are further away
	from homes and therefore more suitable for toilets. Please remove the unsightly barn & shed near the intersection of Woodmen,
	Centennial, & Orchard Valley. They are ugly structures that no doubt are havens for rodents and snakes. The new plan is better in that it
160 22bcf613-5	01/31/2024 17:45:11.673 keeps the Orchard Valley access Road and amenities away from the neighborhood skyline.
	Please don't turn our neighborhood into a drug use theme park. I was out walking just below the Blodgett trailhead the other day and
	found a heroine needle on the ground. We recently moved from downtown to get away from the drugs. Now you guys are going to bring
177 0000-50- (it up to the Peregrine area. Thanks a lot. If you don't believe me drive up Woodman road on a late Friday night and witness all of the 02/01/2024 16:24:29.450 parked cars at the intersection of Sawback trl and woodman. Drugs and sex .1 mile from my house.
1// 88000594-8	Please keep Blodgett Open Space open - we all need to consider there is no going back. There are huge #'s of places for people to bike and
	hike.
64 15796a78-	01/22/2024 23:26:02.099 Let's choose this time to let the wildlife live safely away from development.
	Please leave Blodgett as a nature preserve. Put up a good solid fence and gate so you need a code to hike there. This would control
	crowds, reduce wear and tear plus protect the wildlife. The forest service already warned us to not encroach on Bighorn habitat. It's time
	crowds, reduce wear and tear plus protect the whome. The forest service aready warned us to not encroach on bighorn habitat. It's time
29 4ffc7a0a-9	01/21/2024 18:29:11.708 to leave big city outdated ideas behind and preserve what little amount of Colorado Springs we have left. Leave Blodgett alone.

18 4d692d1d-	01/21/2024 15:39:38.858	Please stop the open space development Please visit the Valmont bike park in Boulder and craft the bike area after the Valmont park. It is fun to ride and can be challenging with 3
156 854411e1- 134 9dadce71-a		options at each trail. Please, close it early, before sundown. Provide signage directing traffic up Centennial and Orchard Path. Keep as much traffic as possible off W Woodman already overburdened with joyriding motorcycles, etc. Limit parking capacity. No businesses, please. Don't turn Peregrine from a rural to a semi-urban environment. Thank you.
		Please—No toilet at the Orchard Valley Trailhead! It's way too close to nearby homes, unlike the North & Quarry Trailheads. Also, the sooner the better for removing the ugly, rodent-infested barn & shed near the intersection. Thank-you for keeping the Orchard Valley access road & amenities away from the Oak Valley Ranch neighborhood skyline. There should be more hiking-only trails and less emphasis
279 099533bc-1	02/06/2024 10:00:54.92/	on mountain biking. Hikers are the vast majority of Blodgett users.

	Preventing camp sites from being established was not explicitly addressed. Though adjacent to residential areas, Blodgett OS is relatively
308 d9683661-	remote; presuming regional trail interconnections will be built, this could lead to homeless and vagabond "communities" springing up along 02/10/2024 17:48:29.912 off-trail terrain, restroom facilities damage and potential crime. Regular PRCS and CSPD staffing is essential for these and other purposes.
	Really appreciate the opportunities for our community to weigh in on the major plan decisions. The meetings at Flying W were
	informative, helpful and provided much information about the way the city and planning team look at the property and decisions.
450 2.240.20	Please consider making all trails multi-use. Hiking-only trails restrict connections for kids and families preventing the use of many of the
158 2e240e20-i	01/31/2024 17:36:05.137 most "kid-friendly" segmentswhich are unlikely to have heavy cycling use, restricted or not)
	Really excited about the project, the much-needed improvements and the benefits it will provide to recreational access, wildlife protection
322 a50242de-	and resource protection. The process was well run and took into a lot of the community's needs and desires. Don't let the neighborhood 02/13/2024 03:10:16.822 deter the improvements. This is ALL OF OUR open space, not their private open space in a gated community.
	Red squirrel has been a foundational trail of the park for generations. Why is this trail being decommissioned? If it's to provide more
150 42df41c0-c	01/30/2024 15:20:08.922 wildlife habitat, then at least make a similarly difficult trail nearby. This was the only hard hiking trail in the system.
	Regardless of facts and opinions sent through surveys, meetings, and emails the master plan will be approved despite overwhelming
	response opposing it. Real concerns expressed by individuals truly invested in the integrity of Blodgett Open Space as a natural preserve
265 51c5202d-1	are being ignored.Equity and logistical issues are dismissed as inconsequential. The master plan powered by special interest groups(the 02/05/2024 15:56:47.309 biking community), in the works since 2018, will commercialize the last of our valued open space.
205 54052020 (Remove the decrepit barn and shed at the Orchard Valley Trailhead ASAPThey are eyesores and havens for mice. Don't put a crapper at
	Orchard ValleyIt's only 40 yards from the backyards of neighbors to the south. People can take their dumps at Quarry and North
222 424-2124	Trailheads. Good to see that Orchard Valley access road and amenities are no longer on the Oak Valley Ranch neighborhood skyline. There
233 d2de3124-	02/04/2024 13:03:15.271 should be less biking-only and more hiking-only trails.
	Residents know that fire evacuation plans have not improved since Waldo Canyon FIre. It took me 4 hours to get down West Woodman
	during the Waldo Canyon evacuation. Number of elderly in neighborhood has continued to increase since that fire and thus has increased
128 8e451had-	the future evacuation risks. At least 10 emergency vehicles were called up the Woodmen hill at Saint Francis Nursing Home and 01/27/2024 21:38:07.610 neighborhood for evacuation during Waldo. This remains an issue. Argues for less people higher up mountain.
120 00 10 10 10 10 1	
	Safety and increased traffic to residential area to surrounds this open space. We literally have huge issues with speeding motorists daily,
	our children have to run across woodmen to access school bus stops and have been placed in danger. We already have issues with break
331 6b73be50-	ins & vandalism. We already have issues keeping our dwindling wildlife population safe, let's add more motorists bikers & hang-gliders! 02/14/2024 18:53:39.481 Great idea! Not to mention the lack of police patrols that we currently have!
001 007 00000	Security measures have been suggested for for the Orchard Valley Trail Head and Blodgett Open Space parking lot expansions: automatic
	locking gates, cameras, additional CSPD surveillance. Will these safety measures be funded and in place for the initial parking lot
103 c061f738-6	01/24/2024 18:25:20.642 expansions? How will these safety/security measures be funded?

	Still concerned about the safety of the para gliding area, along with the vast number of people and cars coming to a very peaceful neighborhood. Not sure how Para gliding is so highly wanted, except for those in sport and associated groups. Many possible issues noted
	in report that will be "monitored", but once it's built out & open, high concern that issues like safety, vandalism, campfires dangers will
635 6e400c16-1	02/19/2024 03:24:49.530 never be solved. CSPD unlikely to have time & resources to be able to monitor effectively.
28 7b6a9b03-:	01/21/2024 18:16:14.988 Stop impacting big horn sheep. Find new areas on the outskirts of COS to develop for recreation and annex it.
42 84373a4d-	01/22/2024 01:42:37.163 Stop invading wild life. It is valuable
56 be1f9b88-3	Stop taking away the land from its original inhabitants. Do a more thorough search to find a place our lovely wildlife are not inhabiting.
20 06113000-5	01/22/2024 18:37:42.209 How would you like for your home to be confiscated! Tax dollars should be allocated to more essential services such as education, healthcare, or infrastructure, rather than creating recreational
	facilities like a bicycle trail theme park.
	Increased foot and bike traffic, noise pollution. The construction could alter the natural landscape, diminishing the beauty and disrupting
	the ecosystem. this is a negative view by those who appreciate the untouched, serene environment of a hiking trail as well as reducing the
185 532417f5-c	02/01/2024 17:25:28.829 sense of solitude.
	Thank you for providing a comprehensive plan to take into account many differing opinions in the community. I know this is no easy task.
80 daf5af3d-d	As trail work is begun to implement the master plan objectives, can you please make sure current mountain bike trails in Blodgett Open 01/23/2024 15:43:07.315 Space are not closed before work is complete on the new, planned mountain bike trails?
	Thank you for such a thoughtful process that took into account the diverse opinions and perspectives of the whole city. Increasing the open
	space adds to the opportunities for all in the Colorado Springs community to access outdoor recreation and adds to the stewardship of our
	natural resources. Thank you for your professionalism in dealing with some of the irrelevant opinions expressed around issues outside
523 a1812624-!	02/18/2024 18:31:28.699 project scope. Excited to see the plan implemented and enjoy the enhanced open space!
	Thank you for your careful and transparent consideration of all community concerns. We would just like to express our expectation that the city and the police department pay very close attention to any nefarious activity that begins to appear in the new parking areas, and
	take immediate measures to mitigate it with closures and continuous monitoring. Nothing will ruin the plan and the benefits of the open
137 ea0c450a-k	01/28/2024 23:13:52.349 space like crime and trash, etc.
	Thanks for keeping Orchard Valley at 15 spots. It's very lightly used, usually no more than 3 cars in the parking lot. Also, thanks for keeping
	the Orchard Valley access road & amenities away from the scenic Oak Valley Ranch neighborhood skyline. Please remove the mice-infested

191 77e99f0f-d		The city is totally disregarding the fact that Blodgett was/is meant to be a preserve. The Big Horn Sheep herd will be negatively impacted by this project. Any research that states otherwise is simply incorrect!
175 0e2c8bef-5		The closure of the popular fenceline mountain bike trail is a loss for Colorado Springs and I'm not convinced that the new trails on the south side can maintain the same character, as is evident by the number of sharp switchbacks in the new trails compared to the direct, flows route of the current trail. Colorado Springs has lost several of the best mountain bike trails in recent years and it's up to the parks dept to prove they can deliver a compelling replacement.
15 beb21b76-		The cyclists are not yielding to other trail users. It is dangerous and inconsiderate. Are there enough areas where bikes aren't allowed?
247 4 007 54		The first order of business should be to remove the rodent-infested barn & shed at the Orchard Valley Trailhead. They're eyesores that need to go. Don't put a toilet at Orchard Valley. It's too close to homes and very few people who don't live nearby use that trailhead. People can take their dumps at the nearby North & Quarry Trailheads. Good idea to keep the Orchard Valley access road & amenities away from the Orchard Valley. Banch a side back and allows.
217 de907c54-(from the Oak Valley Ranch neighborhood skyline.

220 16290ca/-s	02/04/2024 02:48:32.733 from the Oak Valley Ranch neighborhood skyline.
	The issues of keeping gates closed after hours and police availability have not been adequately addressed. The gates at the current
	Blodgett open space are always open.
	Police do not respond to most issues. How is that going to change.
83 7d6792a4-!	01/23/2024 17:51:37.982 Rangers have "no enforcement" authority. What good are they?
	The language referring to 'rogue' trails persists in the draft despite being inaccurate and harmful, potentially offensive. Please use 'pre-
	existing' or 'non-designated' instead.
	The details about what triggers public input/process when the master plan is to be updated as part of 'adaptive management' should be
	expanded in the plan. While we support management flexibility, we continue to struggle with the possibility that in future a master
	planned trail trail could be closed without process.
187 f74e57c9-7	02/01/2024 21:42:24.863
	The less paving over nature, the better!! I'm all for trail maintenance, but desired to live here because of the open space!! No desire to live
689 19e15fa4-6	02/19/2024 04:23:07.905 near a "recreation destination."
92 7bb33acd-2	
	The new plan will increase the number of bikers on the multi-use trails. When hiking the trails of BOS, I have found that there are some
	bikers that do not yield to the hikers, but assume that hikers will clear the trail for them. So some hikers give up and stop using the trails.
	For safety's and fairness sake, we need more hiking-only trails than the one in the plan. What is now BOS has been a hiking area for years.
125 f2fcbb64-d	01/27/2024 20:50:54.608 Don't turn it all into a bike park by making most of the trails multi-use.
375 b4e4a4a2-4	02/16/2024 17:15:58.672 The north parking lot is too big. It should never be 50 spaces! That is an eyesore and not consistent with the goal of preservation.
	The north parking lot will be too big inviting more traffic into a quiet residential neighborhood without a guarantee that the gates will be
	locked at certain times. We already have issues with people partying in this area and leaving trash all over the streets. In the warmer
	months, people are often found sleeping in their cars in this area. As a quiet tight-knit community, we want to maintain the integrity of our
167 88422bbe-	01/31/2024 19:03:51.720 residential living areas and not invite more issues into the area.
	The Orchard Valley Trailhead isn't suitable for a toilet. It's way too close to homes and the smell will waft to nearby residences. People can

Place less emphasis on mountain biking 02/16/2024 16:37:01.664 and more on hiking. Hikers are the vast majority of Blodgett Open Space users.
	The plan should place more emphasis on hiking and less emphasis on mountain biking, as the vast majority of users are hikers. Please don't put a toilet at the Orchard Valley Trailhead. It's too close to homes, with some backyards within 40 yards of the fenceline. Good ideas to restrict the parking lot to 15 spaces and remove the unsightly barn & shed. Also a good idea to keep the Orchard Valley access road and 01/31/2024 18:36:17.756 amenities away from the Oak Valley Ranch neighborhood skyline.
13 8098c2aa-7	The plan sounds great and comprehensive! Thank you for valuing wildlife protection and quiet enjoyments of the park (and for recognizing 01/19/2024 21:50:58.692 the problems with off-leash dogs! Now if only their owners would be respectful)
12 f7ccee6c-а	The responses to hang gliders have been mixed (at best), with more negative responses than pretty much any other planned improvement. Why does this keep getting pushed forward as a favorable decision from the public process? (Even the photograph in the Master Plan is 01/19/2024 20:40:31.792 covered in red stickers - I was at that pop up even in the parking lot, there does not seem to be public support for this.

	The slide that was quickly shown at the meeting of the North parking lot on a very busy summer day is not indicative of the whole year nor justification for the the proposed 40 spaces increase . Taking the highest usage day is inappropriate from an allocation and planning standpoint An addition of 20 spaces would easily accommodate the typically heavy use days throughout the year at this street parking at
129 4aa14e58-4	01/27/2024 21:47:46.303 this entrance.
124 a9d7447c-4	The two neighborhood access points will result in increased car and bike traffic through our streets. Already, parking is limited and we have bikes whizzing down our hills. Options 1) make access points hiking-only 2) make Coldwater and the top of Hollandale Streets resident parking only 3) Put fencing with an s-shaped gap so that people can walk through, but can't ride through the access points, thus slowing the 01/27/2024 20:41:16.051 bikers coming off of the trails into the streets. 4) remove the access points
	The unmitigated impact on the bighorn sheep herd that calls that area home will be impacted greatly. I say no to the development and yes
90 e748ddf2-5	01/24/2024 02:42:26.026 to the safety of the bighorn sheep.
	The updated plan is showing paragliding as one of the most requested inclusions in the plan. This does not seem accurate if you look at the data. Yes there was a lot of responses in favor, but there was a similar amount of responses NOT in favor. I do not understand why the NET is not being considered instead of the total number of responses? Perhaps this has something to do with the US Paragliding association being on the Stakeholder Committee (but that should not drive the
8 4222b68e-I	01/19/2024 16:54:23.442 conclusions).
	There are bighorn sheep and other wildlife in this area that would be impacted. Please do not proceed with this plan to develop land set aside with TOPS funds to remain wild.
26 7769705a-i	01/21/2024 17:34:56.764 Sara Kennedy and Lonnie Burkholder, Colorado Springs
123 8863cc24-c	There are too many multi-use trails and not enough hiking-only. I heard one of the park managers say at the neighborhood meeting that they typically make multi-use trails at least 4 feet wide. Some of the trails in BOS can't be made that wide without blasting away rocks and removing trees (e.g. the trail that starts at the Orchard Valley parking lot and runs on the north side of the ridge). For the safety of all 01/27/2024 20:25:48.043 involved, those trails should be made hiking-only.
171 eead68a6-a	There should be more emphasis on hiking & less emphasis on biking. Hikers are the vast majority of users. You shouldn't put a toilet at the Orchard Valley Trailhead. The fenceline for that trailhead is only 40 yards above the residential properties to the south. Good to see the Orchard Valley Trailhead access road and amenities are no longer on the Oak Valley Ranch neighborhood skyline. Also good to see the 01/31/2024 22:59:55.632 parking lot limited to 15 spaces, along with the removal of the ugly barn & shed.
269 e1e70517-ı	There should NOT be a toilet at the Orchard Valley Trailhead. It's not used by very many people, and it's too close to nearby homes (40 yards from the south fenceline to nearby backyards). North & Quarry trailheads are further away from homes and suitable for toilets. Remove the ugly barn & shed by the intersection ASAP! They're rodent havens and eyesores. Good idea to keep the Orchard Valley access 02/06/2024 13:41:19.854 road & amenities away from the Oak Valley Ranch neighborhood skyline.
	There should NOT be a toilet at the Orchard Valley Trailhead. It's not used by very many people, and it's too close to nearby homes (40 yards from the south fenceline to nearby backyards). North & Quarry trailheads are further away from homes and suitable for toilets. Remove the ugly barn & shed by the intersection ASAP! They're rodent havens and eyesores. Good idea to keep the Orchard Valley access
270 977f651f-8	02/06/2024 13:43:08.201 road & amenities away from the Oak Valley Ranch neighborhood skyline.
	There should NOT be a toilet at the Orchard Valley Trailhead. It's not used by very many people, and it's too close to nearby homes (40 yards from the south fenceline to nearby backyards). North & Quarry trailheads are further away from homes and suitable for toilets.

Please quickly remove the ugly barn & shed by the intersection. They're havens for disease-carrying rodents. Thanks for keeping lightly used Orchard Valley at 15 parking spaces, away from the Oak Valley Ranch neighborhood skyline. There shouldn't be a toilet at the Orchard Valley TrailheadThere are backyards within 40 yards of the fenceline. Good ideas to restrict the parking lot to 15 spaces and remove the unsightly barn & shed. Also a good idea to keep the Orchard Valley access road and amenities away from the Oak Valley Ranch neighborhood skyline. The plan should place more emphasis on hiking and less emphasis on mountain
164 660cd9b1-1	01/31/2024 18:34:00.498	biking, as the vast majority of users are hikers.
95 f98726d4-ε	01/24/2024 05:12:48.629	There's been enough development in this city. Work on current infrastructure before expanding and stealing from the natural environment This Blodgett Plan is going to have a negative impact on property values in this residential neighborhood. It will cause traffic problems. There are already problems with after hours cars staying on the street overnight even though that is not allowed. Police do Not enforce
320 f8af6678-1	02/12/2024 20:52:35.908	this. This in inviting drug problems.
		This city is being destroyed by greedy developers and businesses. The Entire Asset of Colorado is wildlife, open spaces, our mostly excellent weather and nature. We do not want our city to become a concrete parking lot with bike trails for weekend warriors, at the cost of these assets. Use common sense and ecological sense and stop this non sense.
		This comment card is hard to find and confusingly worded. This appears to be intentional and a form of public engagement malpractice. Faux compliance.

The inclusion of paragliding despite strong public sentiment against it is a "tell": this project is preconceived and in collusion with the bike lobby at the expense of all other users and Blodgett itself.

138 1875b7f1- 01/29/2024 02:38:01.058 Terrible communication and neglecting to email the main list about the final meeting and project plan are another "tell". This is wrong.

	This community is growing and our trails and open space infrastructure needs to grow too!
	Trailheads need bathrooms.
	Trailheads need parking spaces. Ute Valley OS Parkingdespite EXTENSIVE OVERFLOW capacity at the school and along nearby streetsfills to overflowing at the busiest times. People will NOT go somewhere else just because parking spaces are full!
159 955ce214-7	01/31/2024 17:41:20.964 Parks need enforcement. It's time for park police to enforce dog leash, waste and other park regulations.
63 6d11b847-	This is a great plan and it's important for the local neighbors in the Blodgett area to remember that Blodgett is a regional open space used by residents throughout our great city. These residents should not have a louder voice than residents who live in other areas of the city 01/22/2024 23:19:39.826 who are excited about recreating at the new amenities described in the master plan.
86 644d1c89-:	This is a terrible idea. That Bighorn are present there has been proven and is undeniable. Stop putting developers desire to make money
	This plan feigns the application of public input and is poised to: - Cede Blodgett to a niche user group: bikers. Hikers have a 1.1 mile outhouse trail and the multi-use trails will belong to bikes by default since they endanger walkers. - Incorporate an unwanted activity by the general public: paragliding - Replace the quiet and solitude of Blodgett with the circus like Red Rock OS - Destroy natural features for appalling bulldozer scrapes
7 8bcdbae0-(01/19/2024 15:08:07.734 - Ignore the interests of nearby neighborhoods
109 12268c38-(This plan is a travesty, destroying the last remaining wildlife preservation area on our westside, as well as a total disregard for the non migrating herd of Bighorn Sheep. It also places recreation over preservation in a small area, which it is impossible to accommodate both simultaneously. It is an unscientifically based plan that fails to take into consideration input from the prior master plan. It also disregards 01/25/2024 04:07:52.618 the value of this area's unique characteristics, and evacuation needs.
311 63de84b3-	This plan is unacceptable. Hiking is where I go to recharge and connect with nature. Under this new plan only one trail, a stretch of 1.1 miles, is for hikers only. On all other trails I'll constantly have to worry about being run over by mountain bikers or expected to move out of the way when I'm just trying to enjoy the afternoon. Not to mention the ecological damage mountain bikes will bring to the space. Please 02/11/2024 17:15:10.948 don't monetize this mountain and ruin the amenity for life long hikers.
	This plan seems pretty well planned out. Sad to see the bike park in the old quary was shut down due to concerns from neighborhood residence. This property seems well out of the way, and wouldn't require any habitat damage to construct since the habitat is already ruined. Seems, local residence want to keep people away from this city owned resource for fear of it becoming a "theme park". City owned
351 0c2d13ef-8	02/15/2024 17:36:36.553 resources should prioritize accommodating as many city residence as possible, theme park or not.
408 55794a4d-	This seems like an unnecessary waste of government time and money. As a local resident for over 30 years, volunteers have maintained 02/18/2024 01:46:01.088 and appreciated these trails. This project plan makes me doubt the validity of the whole TOPS project.
330 9fd6c330-f	This would be a great space for a bike park. A city like Colorado Springs has the potential to elevate the bar when it comes to mountain

	To be mindful of the habitats and plant life first and fore most. I worry undesignated trails from the nearby housing will become more
	prevalent with this expansion like we see in Ute Valley or Palmer Park. I think public education and proper signage is EXTREMELY important
	and the nearby neighborhood should be sent information with LNT and park regulations. Also, the current trails can be steep and
114 22fdf0a0-2	01/25/2024 22:15:14.873 uncomfortable with bad drainage. Long term trail planning should also be accounted for. Thank you!
	Too bike centric; hiking-only trails too limited; need at least 5 miles of trails vs 1.1 mi; reliance on multi-use trails will cause high probability
	of conflict between bikers and hikers; security for expanded parking areas is inadequate; surveillance and gates should be funded as part of
	development at time of expansion; need assurance that anything pulled out of plan (ie traffic pattern changes) will have new process start
99 3840b49b-	01/24/2024 15:49:00.299 and public engagement prior to any decision; no evidence of CSPD audit
	The much second size of the second size when billing second size the cost as is site of Discloset second billing such that is
	Too much emphasis on mountain biking when hikers comprise the vast majority of Blodgett users. There should be more hiking-only trails.
	There should NOT be a smelly crapper, at the Orchard Valley Trailhead. It's way too close to nearby homes. People can take their dumps at
179 090dd8a9-	the nearby North & Quarry trailheads. Good idea to not put the Orchard Valley access road & amenities near the Oak Valley Ranch
179 09000889-	02/01/2024 16:50:58.853 neighborhood skyline. Also good to remove the ugly barn & shed near the intersection.

	We do not want the Blodgett Open Space master plan! Bikers have ENOUGH - Please have sense and keep this area protected for our wildlife. Paragliders have Mt Herman. Preserve and protect Blodgett - Our NON-MIGRATING BigHorn Sheep live here. There is NO Way
	the master plan will "preserve" and "enhance" for our wildlife. Citizens were blind-sides by this "grand plan" while the biking community
524 3770eb2d-	
	··· · ·
1/ 39u4a42e	01/21/2024 14:12:50.101 We don't need any more development in this area. This is prime area for bignorn sneep, Leave the area alone
	We have already encroached on nature enough without this ruining a peaceful and natural area by turning it it into a web of trails for
	people. There is really no consideration for flora and fauna, only mountain bike enthusiasts. So the City is going to ruin the last bit of
16 0c5df427-e	01/21/2024 00:14:53.410 natural land in the foothills in the name if progress. It's shameful and irresponsible. The area should be preserved for wild lif.
10 00301727 0	
	We live immediately above the North Parking lot. The current lot is not managed well and is open well after dark and often after midnight.
	We have to deal with people partying, motorcycles revving their engines and fireworks being shot into the forest.
	Since they can not manage the current parking lot, we are against its expansion unless there is ongoing budgeted money for security and management of the proposed lot.
	We live with noise & with fear of fire emanating from the lot.
378 c523e0e1-!	02/16/2024 20:59:13.646 [contact redacted]
	We live on Terranova Ct across from BPOS N parking lot. Our concern is the addition of more lights in the BPOS N parking lot. We are
	concerned about adding more lights in the parking lot & are opposed to an automatic gate which requires more lighting and cameras. This
	space in our neighborhood is shared with the wildlife and a new light was just installed over a year ago at the entrance to the parking lot.
	Please, NO MORE LIGHTS!

Subject:	Blodgett OS Master Plan Public Comment
Date:	Saturday, January 27, 2024 11:52:53 AM

Hello,

I have comments on the master plan, but they exceeded the 500 character limit, available on the comment card available on the master plan website.

Please see my comments below. Page numbers refer to the pdf page numbers of the master plan document available online. I would like to say that I am in support of the plan as a whole, my comments below are hopefully constructive improvements to make it the best it can be. For context, I typically use open spaces to mountain bike, so most of my comments will be in relation to mountain biking.

Pg 47: Under the Chamberlain and Park to Peak Regional Trails it says: "Within the Open Space, the Park to Peak Trail between Oak Valley Ranch Park and the Quarry Trailhead will be designed, constructed, and maintained to the PRCS Tier Two Natural Surface Trail standard." These standards do not appear to be listed in the master plan, and the Standards I could find list a tier 2 trail as paved.

Pg 48: Regarding the language describing the bike trails:

-I think it should include reference to the double black line as shown in the maps.

-I would appreciate seeing language about optional features (a jump, drop, or rock feature with a way to ride around)

-It would be nice to see suggestions about signage or other features indicating downhill bike trails only. Chutes signage is lacking, and I have had to explain to well-intentioned hikers that it is a downhill bike trail. Chutes signage says "Bikes only," It's possible "No hiking" may be better language to communicate the intent. This issue mostly seems to occur at the mid-way drop-in at chutes. The cattle guard roller at the bottom of chutes seems to work well. Pg 63: "Considering Open Space or individual trail closures when trail conditions exist where visitor use causes trail damage and widening." I would support this if implemented

reasonably. Updates would need to be made regularly and available online.

Pg 72 "Phase 3 Implementation:

• As data indicates, consider reducing trail density or use for visitor experience enhancement.

• As data indicates, consider restricting public access for habitat protection or visitor experience enhancement.

This seems very vague. What data is sufficient to close access? Given that this is a management plan this is where these metrics should be spelled out.

Pg 79 Climbing trail is a blue but downhill only is a blue/green? I understand the need to make a way down for bikes that doesn't involve taking the uphill trail, so I think the ideal solution would be to have a blue trail with ride-around options so that a beginner rider could ride down. This allows more advanced riders to have more fun, and allows beginners riders to try features as they learn. This may be the intent, but isn't described on page 48.

Thank you, I am excited to see the improvements made in the coming years!

Subject:	Blodgett Open Space
Date:	Thursday, February 15, 2024 2:33:04 PM

My neighbor, **Sector 1** has sent you a letter and my husband and I are in complete agreement with all of Amy's points. We have lived on Sawback Trail in Peregrine for almost 18 years directly below the North Blodgett trailhead. We hike the Blodgett trail system multiple times per week and were saddened and concerned with the proposal to reduce hiking trails by more than 20% and increase bike trails/traffic.

This proposed expansion affects us all deeply and we're grateful to share concerns before plans move forward. Thank you for hearing Amy concerns on behalf of all of us.

To Whom It May Concern,

I am a 20-year resident of Peregrine and live in the Sawback neighborhood directly below the North Blodgett trailhead. I fear that our way of life is about to change with the approval of the new open space plan.

Our neighborhood is tucked away. Soon, the bike park will be widely promoted, enticing more people to come into the area, forever changing the quiet peacefulness that we have enjoyed. That said, I know that you have to forge forward with a plan. Here are some things I have been thinking about and would urge you to consider.

Make North Blodgett a Hiking-Only Park

The major use of North Blodgett is now hiking. We have a large retired community here, and many of us hike the open space every day. Why not keep it that way by designating it a hiking-only park? We were shocked to see only one mile of hiking-only trails in the new plan. We fear the creation and promotion of the bike park with connecting trails into North Blodgett will bring many more bikers into North Blodgett and change what makes this area special. If mountain biking were kept at the quarry/expanded area, with trails not connecting to North Blodgett, that would help preserve its peacefulness, a safe space for wildlife, safer trails for hikers and a more pleasant experience.

Proactive and Specific Safety & Security Plan Needed Before Expansion

The Sawback neighborhood is very fearful of the expansion mainly for one reason: we already have street racing, broken bottles, parking overnight on our streets,

people having sex in cars, etc. We know the expansion will bring more people and increased problem activity. Locking gates is imperative but even then, crime will increase if street parking is not enforced.

The proposed plan does not include a specific, proactive safety and security plan in the area of the trailhead including identifying specific gate closure times, plans for how the gate will be closed versus automatic gates, and lack of enforcement currently. We would like to see a specific plan and automatic gates as a requirement before moving forward with the master plan.

Paragliding Doesn't Make Sense in a Densely Populated Area

I was pleased to see that paragliding landing spots were removed from the neighborhood parks where children play. However, paragliding does not belong in a densely populated neighborhood. It should be in an open area without homes or bighorn sheep activity.

Please consider the needs of the Peregrine community and wildlife before approving the plan as it is currently written. This is our backyard - an incredibly special, wild space that needs to be preserved for the generations to come.

Subject:	Blodgett Master Plan Input
Date:	Sunday, February 18, 2024 9:56:04 PM

Hello David -

First off I would like to thank you and your team for developing such a thorough and wellthought out plan that strives to balance environmental and user-preference considerations along with neighborhood concerns.

I have two questions I would like to ask and some inputs to provide. First, on the Master Plan's map of the north trailhead area it shows a trail that is to be closed. Is that the Red Squirrel hiking trail that eventually connects into the Wagon Wheel trail that takes you into the National Forest area? If it is, it would be a mistake to close that trail as it currently gets a large amount of use since it provides an excellent alternative route into the National Forest and eventually all the way up to the Blodgett Peak ridgeline.

Second, what are the current plans for the entry road into the Orchard Valley trailhead? Is it still envisioned as feeding into a four-way stop at the intersection of Orchard Valley and Centennial? If so, it would not be a good idea to turn that intersection into a four-way stop as that would pose problems for cars coming up the very steep hill on Centennial. Instead, I would highly recommend that the feeder road into the Orchard Valley trailhead be kept at or near where it currently is on Woodmen Road about 500 feet or so north of the Orchard Valley / Centennial intersection. and that no changes be made to Orchard Valley / Centennial intersection itself.

Thank you for your consideration.

Hello,

Read quite a bit of this report, a few comments.

I have been actively (almost daily) running on these trails for fifteen years and really appreciate the open space.

Have you actually counted the people using the trails for an accurate estimate of actual usage.

Bike usage has been increasing the last few years, but my estimate is that hiking and running is close to 60 to 75% of users of the trail system.

There is almost no demand for paragliding and it is not a good location.

I think these responses are being manipulated by online response campaigns to change results, online response surveys are open for and have a history of manipulation.

As a constant user with my head down looking for the next safe space to put my foot, I am very aware of the condition of the trails. They are being damaged by erosion caused by increased bike usage.

I am not against mountain biking, but you have to take into consideration the damage the bikes do to trails. Unfortunately they are similar to miniature strip mining machines and cause 90 to 95%

of the damage to the mountain trails. Trails that have existed for decades with minimal maintenance, can become gullies in two or three years of bike use.

Your/our primary goal/constraint is sustainable usage. Bike trails need fortified engineering and construction and additional maintenance to be considered sustainable. They have to be monitored for damage, and

There has to be strong deterrence, i.e. stiff fines, for not following the restrictions. Mountain biking is fun, but it has grown faster than the management of the sport.

Deitemeyer, David
Blodgett Peak Open Space
Friday, February 9, 2024 4:25:52 PM

To Whom it may concern:

-North Blodgett parking lot is surrounded by a neighborhood, which makes it unlike other open spaces. The neighborhood around Blodgett Peak is already experiencing graffiti, littering, and vandalism.

The proposed size for the parking lot is too large, an eye sore, creating an increased volume of people/activities in the area. There are no guarantees that gates will be locked. Those living here have been asking for locked gates for years. The same problems we've been having will continue, but in greater quantities because of the bike park drawing people into the neighborhood. It is not safe to drive by the North entrance on any weekend night and almost any night in the summer, due to the parties, drinking, drag racing, and other activities. The larger parking lot will make this an even bigger problem.

Reducing North Blodgett to 1 mile of trails, is terrible, taking the current trails away from the residents and people currently using the park to create a mountain biking recreational area at Orchard Valley and into Blodgett Peak. These trails cannot be safely shared at the proposed volumes.

The bike park at Orchard Valley will bleed greater numbers into the north Blodgett area which is now primarily hiking. Greater biker/hike encounters. Safety risks and less peaceful hikes the new plan is for 11 miles of trails down from the current 18 miles of trails is ridiculous. The impact of paragliding in a densely populated neighborhood and the potential effect on wildlife and the "quiet" of the current space, not to mention the danger to the general public. The landing areas are in the middle of neighborhoods, not in open fields.

This area is rich in wildlife, fox, rabbit, turkey, bobcat, deer, coyote, skunk, bear, mountain lion, and bighorn sheep. Blodgett Peak is a lambing area for bighorn sheep, expanding it and especially adding mountain biking will be detrimental to the wildlife population.

Stop this proposal. Spend this money taking care of the parks that already exist and are in desperate need of maintenance.

Subject:	Blodgett Open Space Plan
Date:	Saturday, February 17, 2024 9:14:00 AM

Dear Mr. Deitemeyer:

I would like to express my concern about the proposed Master plan and the excessive amount of parking spaces off Allegheny Drive. Here are my major concerns:

- Increased traffic on Woodmen Road, Allegheny, Orchard Valley and Centennial
- No stop signs at Orchard Valley and Woodmen
- Increased drug activity and vandalism at the North Blodgett parking lot
- Increased traffic through a tight area of Oak Valley and possible danger to children and adults in the neighborhood
- FIRE DANGER we have already had one fire started in the North Blodgett area due to homeless camp
- LACK OF OVERSIGHT BY POLICE WHO ARE ALREADY STRETCHED THIN
- NO GATES TO STOP OVERNIGHT PARKING
- CARS NOW PARKING ON COMMUNITY STREETS BECAUSE THEY ARE AFRAID OF HAVING THEIR CARS BROKEN INTO WHICH HAPPENS FREQUENTLY IN THESE PARKING LOTS.
- A 180 space parking lot with no supervision is bound to cause all sorts of illegal activity which will only hurt the Oak Valley Neighborhood and other surrounding neighborhoods

I implore you to come up with a less dense plan in which all can enjoy the trails without causing undo stress to the people who live nearby.

And finally, West Woodmen Road from Rockrimmon to the entry to Peregrine is already a mess despite having had a skim coat put on it last year. The majority of the asphalt is gone due to poor workmanship by the Colorado Springs Public Works Dept. and Cory Farkas should be embarrassed that his crews don't know how to do a decent job. More traffic is not what this road needs.

Thank you,

(I am also the President of the Village at Peregrine HOA and this increased traffic will directly affect my neighborhood.

Subject:	Blodgett Open Space Master and Management Plan comments
Date:	Tuesday, January 23, 2024 2:02:13 PM

Hi Dave,

I wanted to reach out after the Blodgett Neighborhood Focus Meeting on Monday, 22 January 2024. The presentation at the focus meeting were very well done and very helpful. It was helpful to learn that this is a 15-20 year plan. I have a couple of comments I would like to make that I didn't have room for in the 500 character limit comment card or that I just learned last night so I am reaching out by email.

I am glad there will be a hiking only trail. I would like to see it longer than 1.1 miles. That is a pretty short walk. I learned that it will be in the North Blodgett area. I would like to see another hiking only trail at the Quarry area. As a quarry neighbor, I could walk to a trail in this area, but would drive and take up parking at the North Blodgett area. Being a hiker, I would like to see more hiking only trails. I think having bike only trails is a good idea as well.

I believe the current issues of street racing, after hours vehicles in the North and the lot by Orchard Valley road, motorcycle rally rides, nefarious activity, locking and/or monitoring the lots, and closing the lots at dark needs to be addressed before more areas are opened and current areas are expanded. It would be easier to believe these things will be addressed in the future plan if we see them addressed now.

Thank you for your time,

Subject:	Blodgett Open Space Master Plan
Date:	Friday, February 16, 2024 1:00:56 PM

Mr. Deitemeyer,

I built a home on the North Blodgett loop in Peregrin in 1997 and I have lived in Peregrine for 26 years. I currently live on Ruststone Court and my house is in many of the photos and maps of the Open Space Master Plan. I will make my concerns and requests brief:

1) I used to enjoy riding a bike on the utility road going up to the water tower but due to back issues I am not able to ride now without having electric assistance up hills. Why are electric bikes not permitted while regular mountain bikes are? I am very frustrated since regular mountain bikes are much more nimble and therefore often seen on single track trails, going faster and causing much more erosion than any electric bike would.

2) I like the proposal of an expanded parking lot since Woodman road can become very over crowded. I have seen over 100 vehicles on Woodmen road at the North Parking lot on more than one occasion. There are many times when cars park in front of my house which I am not fond of but will probable continue even with a larger parking lot.

3) My biggest complaint is excessive speeding and the NOISE from motorcycles and cars with modified exhaust systems (or no muffler at all). The main way, and possibly only way, to limit the street noise would be by posting noise ordinance signs accompanied by SOME enforcement. I have contacted Falcon Police many times regarding this and they say they can't "pursue" but the fact is their presence is minuscule and they usually do nothing more than drive through the neighborhood rather then attempting any enforcement.

4) One of the few trails I enjoy on a regular basis is "Red Squirrel" trail which connects to "Dry Creek" trail to the South of the utility road. On the maps, this trail is designated for closure and I hike this trail multiple times a week. Please keep this existing trail open and if errosion is of issue please designate this trail as a foot trail only.

I am sorry this is just another list of complaints to add to the list but I do want to say thank you for all the work you are doing to make Blodgett Open Space a better place for all to enjoy.

I am well familiar with all the trails that connect to the utility road from the North Parking lot so please feel free to contact me if you would like any information I may be able to provide as a long time user of this wonderful space.

Whatever assistance you can provide for my concerns above would be greatly appreciated.

Hello David~

I am writing my letter to you as your website would not take my comment even when under 500 characters, so here is the long version. I trust this will be entered into consideration by you and the many people on the board of this plan.

Response to Blodgett Open Space Master and Management Plan

Meeting held 1/22/2024

From

I realize the team has made an effort to listen to many diverse views throughout the public meeting process which I appreciate. While most residents of the westside seem to agree on the hearty measures being taken to preserve wildlife habitat and conservation and the upgrading of trail marking and improvement to fire damaged burn areas in this space still suffering from the Waldo Canyon fire, I believe the most controversy appears to be over the size of the parking lots being proposed in the three locations of the Blodgett Open Space Master Plan. It appears there is a great inequity in the decision making on this matter.

Throughout the evening, I heard many references to the reductions made on this plan to the size of the Allegheny and Orchard Valley parking lots. In fact, Orchard Valley has only 15 spaces in this proposal which it already has the capacity for so no increase on this parking lot size! This makes no sense to me when it is in the center of the Blodgett Peak Open Space and the land clearly is present to make a larger lot to accommodate more visitors to hike either direction of the Open Space. This lot should be considered for greater expansion now not later to take the pressure off the North parking lot expansion especially.

The North Blodgett Peak Entrance cannot absorb 51 spaces which is more than triple its size now! **The first meeting offered an increase of 20 spaces which is what I believe to be reasonable.**

Trying to achieve a land to parking spot ratio from its current value of 0.4 to 6.0 (a 15X increase matching the maximum implemented in the entire park system) is NOT appropriate for this small piece of land situated in a watershed area in a neighborhood with the highest fire risk in the Blodgett Peak Open Space. Clearly none of the board members on this Blodgett Peak Open Space Plan experienced the terror and chaos of the evacuation of Peregrine during Waldo Canyon Fire. **This area has a proven fire evacuation risk!** Attracting too many people to an area this fire-prone is not prudent or wise or good park planning. Orchard Valley is more than a mile lower down Centennial Boulevard with much more ability to evacuate quickly if more parking spaces are needed. Allegheny would have no issues. Your allocations on parking I believe should be more equitable.

At this time, the city of Colorado Springs has no fire evacuation plan in place for the Peregrine neighborhood. We in essence are no better off than we were 12 years ago when it took me 4 hours to get down West Woodman during the Waldo Canyon evacuation. The number of elderly in our neighborhood increases the fire evacuation risk of loss of life dramatically. At least 10 emergency vehicles were called up the Woodmen hill at their own risk to carry down those with emergencies effectively closing down one lane of our downhill evacuation which is one reason it took so long to clear the cars down the hill. This scenario has not changed in the last 12 years.

During the Dec 21, 2021 Blodgett Peak fire, our neighborhood (and no other) was called into pre-

evacuation status as the embers blew down from a careless camp fire. They left their car in the Blodgett Peak North lot overnight. Cameras and locked gates won't prevent this type of "camper." I can't imagine the cost to the city of the airplane called from out of state to put out the Blodgett Peak fire! Not to mention the risk to the fire fighters on the steep terrain.

The slide that was quickly shown at the meeting of the North parking lot on a very busy summer day is not indicative of the whole year nor justification for the huge proposed increase in parking spaces. Even that day, it appeared to be 10 cars at most. An addition of 20 spaces would easily accommodate the worst day of street parking at this entrance.

I do agree "No Parking" street signs should be put up along Centennial to maintain the integrity of the bike lanes, and I request strict police enforcement with tickets and towing be employed if violations occur. That would mean police would have to patrol this area regularly.

Once again, I am requesting a copy of the traffic study required for the plan to proceed.

I sincerely hope you reconsider the parking situation in the North Blodgett Peak Open Space to accommodate just 20 additional spaces and if needed consider an increase in the lower Orchard Valley lot to balance the traffic increases and congestion at the North lot expansion guarantees. The integrity of our neighborhood, the safety of our children at the many bus stops on Centennial, and our property values are at stake with increased traffic, noise and congestion.

Thank you,

From:

Subject:	Keep Blodgett Wild!!
Date:	Sunday, February 18, 2024 10:13:50 AM

Hello David,

I have been to the community meetings for the new Blodgett Open Space Master Plan, and many voices who cherish this space are still not being heard. Residents of the nearby communities and the hikers who have been using this space for years do NOT want an "expanded" master plan that adds noise and commotion. We want to preserve the wild, natural space that already exists, and is home to the many different species of wildlife that we cherish.

We cannot continue to develop wild areas for expanded recreational use, or we will lose the very things that make our city the beautiful treasure that it is. Furthermore, this supposed expansion is not even adding miles of trail—it is, in fact, DECREASING the amount of trails, but ADDING over 200 parking spaces. How does that make sense—more people, less trails?! This will severely congest the open space, and although I know that wildlife corridors have been considered, this overwhelming amount of human presence in the open space will most definitely scare our precious wildlife away.

Have you asked the bighorn sheep what they want? I'm guessing they don't want mountain bikers barreling down their hallway at 20mph. We can't risk losing them. How about the peregrine falcons—will they mistake the paragliders soaring over them for predators, and vacate the area? And the mule deer that live in harmony with the current community—will they be safe with hundreds of cars who are unaware that they are there flying up and down the mountain?

We do NOT want 180 parking spaces at a new trailhead—this will become a loitering spot that will increase noise and crime, and will scare off the wildlife.

We do NOT want 50 parking spaces in the North Blodgett lot—this will invade and degrade the trailhead. We do NOT want multi-use trails that will in reality become mountain biking trails, because hikers will not want to risk injury from sudden encounters with bikers.

We do NOT want paragliders terrifying the wildlife as they descend down upon them.

We do NOT want Blodgett to turn into a tourist destination—we have plenty of those in town. We want to keep Blodgett a natural community treasure where we can recreate quietly in peace and harmony with the wildlife that lives there—like we've been doing for years.

From the information I gathered, mountain bikers have approximately 47 miles of trail at Ute Valley Park, 41 miles of trail at Red Rock Canyon Open Space, and 69 miles of trail at North Cheyenne Cañon. Why are we handing over the tiny little refuge that is Blodgett to them as well?! PLEASE take the concerns of all groups and individuals into consideration, and think about the area's recreational facilities as a whole. A handful of mountain biking (or "multi-use") trails at Blodgett would be just a drop in the bucket compared to the biking trails that already exist in town— but if you pave paradise and put up a parking lot here, you will forever lose the natural haven that Blodgett Open Space already is for many.

Sincerely,

From:	
То:	Deitemeyer, David
Subject:	Blodgett Open Space Master and Management Plan
Date:	Saturday, January 27, 2024 10:10:01 AM

Dear David,

I was able to attend the Blodgett Open Space meeting on January 22, 2024 and found it somewhat disappointing.. Most of the material presented was already available online prior to the meeting. No opportunity was provided for audience input or questions during the meeting. It was difficult to identify the proper representatives to talk to during the 30 minute "open house" that followed.

I have several ongoing concerns about the plan:

1. Multi Use and Bike trails are given priority over Hiking Only trails. In fact, there is only a single 1.1 mile hiking-only loop trail in the entire plan. So much for "more hiking-only trails" as requested by many current Open Space users. My experience as a hiker on multi-use trails has included a number of encounters with mountain bikers, not all of them positive. Yes, some bikers are polite and yield, as required, to hikers. Others, however, are not as pleasant, with bikers coming around blind corners at high speed and not yielding to hikers, creating dangerous situations on narrow trails. We need more hiking-only trails! In view of the planned decrease in total trail miles from the current status, this may have to be at the expense of some multi-use trails. I recognize that there is a strong mountain bike lobby involved in the current plan, with two representatives of the Colorado Springs Mountain Biking Association on the Stakeholder Action Committee.

2. Paragliding is still in the plan. I do not consider this necessary or appropriate. Interestingly, a representative of the U.S. Hang Gliding and Paragliding Assoc. is also a member of the Stakeholder Action Committee. (I have to wonder who decided which individuals / organizations would be invited to serve on the Stakeholder Action Committee.) When I asked (at the Open House) a TOPS representative where the impetus originated for having paragliding included on the Open Space, she was quick to respond with a "pep talk" on everything good about paragliding, including how many paragliding enthusiasts there were locally (actually a fairly small number). In the course of our discussion, she happened to mention that her son was a paraglider.

3. The planned expansion of the North Blodgett trailhead parking lot is excessive. Expanding the lot to the west will extend uphill, creating a very visible eyesore. This will also require removing a number of mature, healthy pine trees on the south edge of the current road. A more modest increase in the parking lot size would be better. We could still use the current on-street parking on the west side of Woodmen Road (which does NOT block the bike lane on Woodmen), with proper enforcement of "no parking" beyond this zone.

(Sorry about the length of this email, but I was limited to a one-time 500 character comment entry on the Open Space website.)

Thanks,

Many in the neighborhood are now questioning support for TOPS given all the unnecessary construction planned for the Blodgett area. For years, we were very happy with the work volunteers were able to achieve for any necessary trail maintenance, since the people working on the trails were the ones who were using the trails.

But progress was not free from government interference starting more than

a decade ago. An effort using neighborhood volunteers to curtail erosion after the Waldo Canyon fire was squashed by a representative who indicated

he preferred to throw a bunch of money at the problem, and use heavy equipment for a job nearby residents could have done with shovels, picks,

and saws.

At a similar point in time, a scout, who wanted to mark the trail to Blodgett Peak as an Eagle project, was told by a government official that he couldn't because, "The trail has to be engineered". Since that roadblock, many have lost their way trying to make it to the top, and only

because a government entity insisted on having control on a project the neighborhood would have been happy to do free of charge.

Those in the neighborhood who voted for TOPS had expectations the funds would be used for necessary improvements, but now that they see up close how the money is applied, there is increasing doubt whether the whole TOPS program was a waste. Are ALL of the TOPS projects just looking for a way to spend the money? I hope not.

Please don't turn the Blodgett trails and open spaces area into a drug-use theme park. My wife and I have lived in Colorado for almost 20 years and have lived in all areas of the town. Recently we moved to the Blodgett area to escape the drug users of downtown. A week ago I was out on a walk with my 6 year old son at the intersection of Sawback Trl/Woodman and walked past a used heroin needle. He tried to pick it up because he was curious of course. Do me a favor this Friday night. Drive up to that intersection at about 10pm and count the number of cars parked there that are engaged in sex, smoking weed, and doing other hard drugs. Then tell me that adding hundreds of parking spaces in this neighborhood is going to be a good thing for anyone that has recently bought housing in this neighborhood. The Blodgett trailhead is going to become the place that people tailgate at on a weekend evening. You are going to ruin this pristine neighborhood. But you live up here right? So who cares?

Below is a comment I submitted on the "online comment card" at the BPOS Master Plan webpage:

"This seems like an unnecessary waste of government time and money. As a local resident for over 30 years, volunteers have maintained and appreciated these trails. This project plan makes me doubt the validity of the whole TOPS project."

I am highly opposed to this plan.

Subject: Concerns following Monday's presentation of the Blodgett Open Space Master Plan

To whom it may concern

Thank you for your time the other evening after the presentation on the Blodgett Open Space Master Plan. I'm copying below previous email correspondence, primarily in regards to nefarious activity in the neighbor. Since my last email, our daughter was cursed at in the middle of the afternoon as she was sledding in our yard by a homeless person. I called non-emergency police and it took almost 12 hours for a police officer to return by call at 2am. On Sunday 1/21/24, multiple street signs were stolen along West Woodmen Rd on the west side of the street marking no parking areas as well as a curve. I reported this on the GoCOS! app. We continue to have people parking both day and night on the east side West Woodmen Rd in a designated bike lane located on the embankment above our house on Terranova Ct. as well as the north intersection of Woodmen and Sawback. This results in loud noise and littering of fast food wrappers, alcohol containers, used condoms, and other trash.

In response to the latest draft of the Blodgett Open Space Master Plan, our concerns as some of the nearest neighbors are below. I spoke with many of our neighbors following Monday evenings meeting and consolidated our concerns. I also shared our concerns yesterday with our Peregrine HOA president, Kristen Petersen, yesterday and plan to continue to advocate with Parks and Rec, TOPS, city council, and the project manager.

Here is a summary of our Sawback neighborhood's concerns and a summary from

my call with yesterday:

I just got off my call with **betavered** our HOA president. I communicated all of our concerns with her and she echoed many of them. She has a meeting with Dave Donelsen, our councilman, on Thursday 12/25 and the concerns she plans to highlight are:

1. the size of the N. Blodgett parking lot up to 51 spaces. It is too large, an eye sore, and will increase the volume of people/activities (both good and bad) in the area. We would like to know going what the plan is for the current roadside parking given that the current draft of the Master Plan says all parking will be behind gates.

2. the decrease in hiking only trails down to only 1.1 miles. We want to advocate for our hiking only trails to be increased. How do they anticipate accommodating the current volume of hikers on the trails while decreasing the amount of trail length and also increasing the parking lot size? The current proposed 11 miles of trails will not accommodate the volume of use.
3. the lack of a plan within the Master Plan to address security and safety in the area of the trailhead including identifying specific gate closure times, plans for how the gate will be closed v. automatic gates, and lack of enforcement currently. We would like to see a new draft that is proactive in planning versus reactive. Our current gates are often not locked which points to lack of current enforcement and we advocate for automatic gates. The Peregrine HOA has had independent conversations with Douglass County who uses automatic gates and they have provided their research to our councilman as well as the Parks and Rec department.

4. In regards to property values, we discussed how the expansion will not increase our property values as they discussed at the last meeting. **Parks increase property values when they are added, not expanded.**

5. We also discussed concerns in regards to the **impact of paragliding and** increased recreation through expanded hiking and biking on the wildlife and "quiet" of the current space.

6. I inquired about the **exact timeline of implementation** as I did not see this outlined anywhere in terms of phases based on budget. Said from what she's gathered at other meetings that if this were to pass, they may start work as soon as this summer with them likely starting by closing social trails as they develop the "new trails" first, however she has not seen anything in writing. She also expressed that the plan will likely take a decade to complete however the order in which it is to be completed is not outlined and that they don't have enough funding to complete everything. What are your phases for implementing the plan? How soon do we expect construction activity in our neighborhood?

7. I expressed that **Blodgett Open Space is a unique open space as it is nestled** in our neighborhood and can only be accessed via neighborhood roads and cannot ever be completely closed or gated off like other open spaces in our city.

8. Will be following up with Todd Frisbee in the city regarding no parking zones along West Woodmen and the sign placement for those zones as well as enforcement of it. We are asking for "no parking" signs to be placed on the east side of West Woodmen across from the open space in the current bike lane as cars frequently park there both day and night.

We encourage you to vote against the current Master Plan as it is written.

Thank you for your time, consideration, and advocacy for our neighborhood,

Begin forwarded message:

From:

Date: October 27, 2023 at 12:51:53 PM MDT To: BlodgettMasterPlan@gmail.com, Anna.White@coloradosprings.gov, "Donelson, Dave" <Dave.Donelson@coloradosprings.gov>, Todd.Frisbie@coloradosprings.gov, ParksAdvisoryBoard@coloradosprings.gov Subject: Blodgett Open Space expansion concerns from one of its closest neighbors

Hello,

We are residents of a house directly across the street and under the embankment from the northern Blodgett Open Space parking lot... meaning we are one of the nearest neighbors to this parking lot. Why, as some of the nearest neighbors to the impacted area, were we not notified by a mailing or a flyer on our door of any of the meetings surrounding this project? We are people who like to keep informed and had to track down the meeting times related to this project.

We are very concerned about the city's plan for expansion of the northern parking lot of Blodgett Open Space. I attended the August 2023 meeting and expressed my concerns there. This area already draws significant negative behavior and we are concerned expansion of the parking area will only increase crime in the area and reduce our property values.

In late 2021, I worked extensively with our councilman (who I have cc'd), our HOA, and city officials to increase lighting in the neighborhood and install a parking lot gate. I attached my letter to this email with our primary concerns at the time being graffiti, overnight parking, motorcycle & car racing, street sign theft, and littering of alcohol containers, fast food wrappers, and used condoms. We were successful in having additional street lights and a parking lot gate installed. Our HOA also worked with CSPD to install a Flock monitoring system tracking incoming and outgoing license plates in order to try to track criminal activity.

However the streetlight installed directly next to the northern parking lot was vandalized 2 times shortly after installation. In December 2021, we were impacted by a small fire in Blodgett Open Space likely linked to camping in the area. Since that time, we have continued to notice significant overnight traffic/parking above our house, littering, and graffiti. We also hear frequent noise from motorcycle racing in the overnight hours. Cars are often parked multiple hours overnight with loud music playing in the designated bike lane that runs along Woodmen next to the northern parking lot for Blodgett Open Space. We have had people park in front of our house before and walk through our yard and hike up the embankment in order to access Blodgett Open Space. We have also reported an abandoned vehicle in front of our house that was later reported as stolen.

We are also quite concerned with the proposed map of hiking trails and see the loss of many hiking trails that we can access out of our backdoor via the northern parking lot.

A 4 way stop at the intersection of Woodmen and Orchard Valley would be quite dangerous. Often in the winter, cars coming up the hill from Woodmen or Orchard Valley need to maintain their momentum up the hill in this area on icy days and a stop sign would lead to problems in this area as well as for the cars coming down the hills who would not be able to safely stop.

We are concerned that expansion of the parking lot near our home will only add to the draw of the area. We are confused as to why residents living most close to the area were not consulted earlier in the project. We are quite concerned about the increased density of use of the beautiful open space in our backyard and the safety concerns associated with it and it's impact on this natural area for generations to come.

Please feel free to reach out to us with any questions you may have.

To Whom It May Concern,

We have lived in our house on **Sector of Sector of Secto**

I personally have reported multiple incidents of graffiti via the GoCOS! app on the stop sign and speed limit sign as well as a phallic symbol on the road near the northern intersection of Sawback Trail and W. Woodmen Road, most recently approximately 1 month ago. Approximately 1 year ago, I also reported via the GoCOS! app missing street signs marking a curve located on W. Woodmen Rd. above our house.

We have noticed an increased amount of overnight traffic and parking as well as incidents of people sleeping in their cars for multiple nights at a time on Sawback Trail above Mt. St. Francis near the W. Woodmen intersection. I personally have called the non-emergent police line in past summers due to the noise from people partying in near Mt. St. Francis along Sawback Trail as well as in the Blodgett Open Space parking lot in the late-night hours. There has been an increased amount of liter from the activity in the area of Sawback Trail and W. Woodmen Rd. as well as along W. Woodmen Rd. between the Blodgett Open Space Parking lot to the Sawback Trail intersection to include alcohol containers, used condoms, used tampons, and fast-food trash. We have elementary school aged children and this is quite concerning to live next to and walk by. We also hear frequent motorcycle and car racing along W. Woodmen Rd. above our house during the late-night hours.

The intersection of W. Woodmen Rd. and Sawback Trail is a bus stop of Academy District 20 middle and high school students and it is concerning knowing what they may be seeing on the way to their bus stop. We are also concerned that these students are walking past people sleeping in their cars well past the bus stop hours. Additionally, the lack of lighting, particularly during the winter months with less daylight hours, makes this area more dangerous for students waiting for and loading busses.

We have noted that the northern Sawback Trail and W. Woodmen Road intersection is one of the few intersections within our neighborhood with a stop sign that is not lit by a streetlight. We propose encouraging installation of a street light at this intersection to help deter some of the unwanted activity occurring in this area. We also see great benefit of a street light being installed in both of the Blodgett Open Space parking lots to deter unnecessary gathering at night. There is an approximately 4,100 foot stretch of road on W. Woodmen Rd. between the southern intersection of Sawback Trail with W. Woodmen Rd. to the southern intersection of Blodgett Drive with W. Woodmen Rd. that does not have any street lighting along a very curvy part of the road. We also feel that increased police monitoring in the area would help deter unwanted activities in the area.

We appreciate the time you are taking to hear our safety concerns about this area. Please feel free to reach out to us with any questions you may have. We have brought up our concerns to the Peregrine HOA and also plan to contact our city councilman and the Academy D20 Transportation office in regards to our concerns about the bus stop.

David,

The online comment card is not working

I really hope you are not going to put in a gigantic parking lot that will mostly be used only on weekends. I'm afraid it will bring my property and the neighborhood's property values way down. I think it will also encourage more novice hikers and bikers that will get in trouble and as I'm sure you know extraction is not easy or cheap. I have watched many rescues and the steep slopes and narrow trails make firefighting, lost hikers, bike crashes difficult to get fast efficient help. The parking lot is a good size for the experienced hikers and climbers, there may be overflow but only on weekends. The park service has enough problems from closing the gate, to keep out the parties, crazy people setting off fireworks, cooking fires and guns being shot off. The police don't respond to any of the incidents that have happened and this enlargement will just make more problems for the city. My family and our neighbors say NO, NO, NO!

I am very concerned about the plan to reduce the number of dedicated hiking trails. It sounds like the plan is for the park to turn into more of a destination for bikes and paragliding. This greatly concerns me, as it is a great place for hiking.

CAUTION! - External Email. Malware is most commonly spread through unknown email attachments and links. DO NOT open attachments or click links from unknown senders or unexpected email!

Hi Seth,

Regarding your article yesterday, Blodgett's original master plan was all about preservation, so, yes, Blodgett has been and still is arguably a nature preserve. A google search for Blodgett Open Space on my phone reveals it is regarded as a "Nature preserve in Colorado Springs, Colorado:"

~ đ â ->

47

Besides Blodgett actually being a nature preserve, there are other things you may not know about the attempt by the city to alter Blodgett to satisfy the special interests of a statistically small and not-at-all-diverse group of mountain bikers and paragliders

The original master plan was thorough, well-researched, scientific and future-thinking in it's attempt to preserve the ecosystem of Blodgett Open Space. https://coloradosprings.gov/document/blodgettpeakopenspacemasterplan.pdf

10

The new master plan is shallow marketing spin with the words "sustainable" and "stewardship" sprinkled throughout while clearly not having a clue what they mean.

In addition to the preservation intent of the Blodgett purchase and the original master pan. I've provided (below) some additional information that will shed light on the current effort to protect and preserve Blodgett. I am reminded of the words of famed nature photographer, Ansel Adams, "It is horrifying that we have to fight our own Government to save the environment."

Please see pdf page 10 of this grant document: https://cpw.state.co.us/Documents/Trails/Grants/NonMotorized/2024-App-Submissions/P9-SE_Blodgett-Peak-Planning_combined.pdf where you will find: "Based on previous dialogue with CPW staff regarding Blodgett Open Space, we are aware of the importance and sensitivity related to the Queens Canyon Big Hom Sheep herd." Well, there is no such thing as "the Queens Canyon Big Hom Sheep herd." Well, there is no such thing as "the Queens Canyon Big Hom Sheep herd." Well, there is no such thing as "the Queens Canyon Big Hom Shadows, and Blodgett Open Space, we are aware of the importance and sensitivity related to the Queen's Canyon, Glenn Eyrie, 2424 GOTGR, Garden of the Gods, Flying W, the western most part of Mountain Shadows, and Blodgett Open Space. Was this deliberate or just sloppy? The USDA-FS in a comprehensive study of Rocky Mountain Bighorn Sheep) advised this city to funnel recreation away from sheep use areas and to curtail development on private lands in critical areas will benefit the Rampart Range bighoms." <a href="https://www.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.com/bightms/staff.staff.staff.com/bightms/staff.staff.com/bightms/staff.stafff

Or or and after tools uping or hands and because when we do not a dimension trace to the provide the setting at Flying W hand well because the setting at Fl

Parks and Rec tells us they are going to close trails to improve Blodgett. We know from the experience of other parks that closing trails often fails: "Mountain bikers are, as a demographic group, fit the profile of off-road vehicle users. They are predominately male, between 20-40, and tend to have above average incomes and often have the same outlaw attitude and sense of entitlement.

sense or entuiement. We see this sense of entiltement in the continual commandeering of trails and/or illegal construction of new trails on public lands by mountain bikers. When the Forest Service or BLM seeks to close some of these trails (very infrequently done) mountain bikers squeal like a poked pig, claiming they being 'discriminated against." <u>https://www.thewildinfenws.com/2016/12/13/mountain.biking-greatest-threat-to-new-wildemess-designation/</u> And the idea of increasing habitat by closing trails is a bit bizarre when at the same time new trails are being built (and some of those unintentional trails being closed may well be deer paths).

The mountain biking community and paragliders have referred to those of us who oppose the ramping up of recreation in Blodgett as "NI/MBY's." As if we are the selfish ones. But we are trying to save a species and an ecosystem from the degradation of overuse. Whereas, the mountain bikers and paragliders just want another place to have fun and experience adrenaline highs. With the opposition, it isn't about us – it's about the bighorn, the other wildlife and the ecosystem. Tive in Princetiff. Blodgett Open Space is not in my backyard. Another member of the opposition to the plan lives in Black Forest. On Nextdoor.com, people from many neighborhoods have expressed that they too oppose the new master plan and ramped up recreation in Blodgett

Paragliding near homes is unwise to put it nicely. What could possibly go wrong?

We know that paragliding harms wildlife even while we do not know just how much it might harm the bighorn specifically: "Data show that free-flight activities create disturbances and have negative effects on wildlife, resulting in increased energy expenditure, reduction of feeding time, abandonment of feeding areas, reduced breeding output, loss of body condition, increased predation risk and harm from flight accidents." https://www.tesearchgate.net/publication/35891268_Effects_of_free-flight_activities_on_wildlife_a_poorty_understood_issue_in_conservation

Parks and Rec. spin sometimes crosses the line into complete misinformation. Ute Valley Park is significantly larger than Blodgett:

Friends of Ute Valley Park
 https://www.friendsofutevalleypark.com > about

About

Since our formation, support for our efforts in maintaining the entire 550 acres of park

land, has been both passionate and overwhelming. This passion and ...

But Parks and Rec. tells us Blodgett is larger than UVP! Therefore, these parking per acre stats presented at the meeting are

just wrong:

Parks and Rec. detering to the CPW on wildlife matters for this Blodgett plan reassures no one who is familiar with the CPW and how they have operated in this city. During the 2424 Garden of the Gods Road rezoning process, the CPW gave an opinion to city planning that high-density development on 2424 would have no effect on the bighorn because the bighorn didn't use that property. Citizen evidence showed the sheep used the property deliberately, regularly and in large numbers thus proving the CPW's opinion to be completely wrong. A Colorado Open Records Act (CORA) request (that turned into a freedom of information fight) revealed that the basis for the CPW's supposedly professional opinion was one CPW employee saying the never saw any sheep on the property didn't know anyone who had. Even after citizens produced numeus photos and videos of the sheep on the property for work of the CPW's own radio tracking collars), the CPW refused to alter their opinion! And last year over a thousand people signed a petition to the Covernor asking that CPW's between a constraints, the CPW refused to alter their opinion! And last year over a thousand people signed a petition to the Governor asking that CPW's own radio tracking collars be changed after a horrific incident where CPW personnel deliberately destroyed a mother bear and her cub and dumped another small, surviving cub in the mountains after the mother bear blustered to warn teenagers and the CPW solution. Will the CPW destroy wildlife in Blodgett because a mountain biker gets blustered at by a mother bear or stresses the bighorn and a ram reacts protectively of the herd? Or because a paraglider frightens deer into colliding with hikers?

It is difficult to understand why Parks and Rec. is spending 7 million dollars to develop Blodgett for recreation when there is such a great need for community parks in Colorado for poorer and/or apartment-dwelling children who have no nearby green-space parks to play in. Colorado Springs' Parkscore is sad: https://www.tpl.org/city/colorado-springs-colorado But there is money enough to spend 7 million in one place for a small group that is statistically well-off financially. male and while?

Though there are some differences, the results indicate that mountain biking is still a sport that consists of mainly highly educated, wealthy,

Diking is still a sport that consists of mainly highly educated, weathry,

white men. Beyond this, many riders are using their mountain bikes for exercise and fun.

https://researchrepository.wvu.edu > viewcontent PDF

Insights into the West Virginia Mountain Biking Community

Rocky Mountain Bighorn Sheep are a "species of greatest conservation need" at the state level, and a "sensitive species" at the federal level. Those conservation classifications are a warning that if we do not protect bighorn habitat now, the species will be listed as endangered in the future. Wildlife watching brings in over a billion dollars a year to Colorado with people from all over the world coming here to see our iconic state mammal. So it makes good sense to preserve and protect Bidogett for the bighorn sheep and funcel recreation away from the areas they use as per federal recommendations. The city of Colorado Springs is rare for having a resident herd of bighorn sheep that does not migrate. Risking that to create yet another place to recreate is short-sighted to say the least.

Perhaps sometime soon we will see an article from you about the important reasons Blodgett Open Space needs to be preserved

Passing along!

CAUTION! - External Email. Malware is most commonly spread through unknown email attachments and links. DO NOT open attachments or click links from unknown senders or unexpected email!

As the next draft of Blodgett Open Space Master Plan is being finalized, I am writing to ask that we keep the space a peaceful, wild, and natural haven for the wildlife that lives there and the hikers who are already regular users of the trails.

Reducing the amount of trails and designating many others as shared access or biking-only while also adding over 200 parking spaces to accommodate the influx of mountain bikers that the expansion is targeting—will in effect drive away those of us who have quietly been using this trail system on foot for years. Furthermore, both hikers and bikers will be put at risk for injury if the majority of trails are multi-use.

The current users of Blodgett are drawn to it by its simplicity and the wildlife that it protects. Some of us are also there for the challenge that the current varied routes can provide. With only a 1.1-mile section of trail dedicated to hikers, I fear many of us will in effect be driven away from this beloved space.

While I understand that the concerns of all groups and citizens need to be taken into account, please keep in mind the HIKERS who are already dedicated users of these trails. Let us keep Blodgett Open Space as our training grounds, as well as a safe haven for the creatures that call it home!

As hikers, we want to:

- Increase the percentage of hiking-only trails, with varied levels of difficulty
- Decrease the amount of proposed parking
- Keep Blodgett Wild

Subject:	Peregrine Master Association to Blodgett Open Space Master Plan Committee
Date:	Monday, February 12, 2024 2:09:38 PM

Dear Blodgett Open Space Master Plan Committee:

The Peregrine Master Association represents 1,008 homes that neighbor the current BOS and its expansion. Our community has specific concerns related to the project plans released in January 2024.

1. The north parking lot expansion to 50 spaces is too large. The Parks Department has kept this lot exceedingly large in an effort to reduce street parking, which has not been a problem during normal park hours. Street parking is an issue at night, when the park is closed. To that end, "No Parking" at night signs (during park closed hours) are already ordered and being installed by City Traffic on the East side of W. Woodmen Road across from the north parking lot entrance. These signs already exist on the west side of the road near the north entrance, but were stolen one week ago. Enforcement of these signs is up to CSPD and is sporadic at best. Enlarging the north lot, while reducing the sizes of the other two lots, does not make the area safer. Without proper gating and monitoring, the lot will only encourage negative behavior such as fireworks, drug sales, loitering, and camping at this location. There is no data showing that expanding a parking lot relieves all or most street parking. There is also no data showing that this particular lot needs to have 50 spaces while the other two lots have been substantially reduced in size compared to the October plan.

2. There is no solid plan for locking gates at night. This is a consistent issue at the current two lots. Our community has provided contact information to City Parks for electronic gate installation that has been used by Douglas County at several of their parks. The current plan claims that the HOA in the area (of which we are the only organized, dues-paying HOA neighboring this park) should work on this issue. We have already worked with CSPD, Traffic Engineering, and now provided gate information. As residents of Colorado Springs with a park that is accessible by anyone, it seems that the City should be paying for gates/management, not a private HOA paying for this on City property.

3. There is no timeline provided for this build-out. While the question about a timeline has been asked several times, the plan does not show a timeline for implementation (such as these are the first items we plan to do, these are the second, etc.). Those neighboring the park would like to know what to expect related to the items that are going to be addressed. For example, if the expansion of the parking lots is going to happen after the changes to the trails, simultaneously, or when better gates would be expected.

4. Better enforcement options. The plan provides little actual enforcement options, claiming that a park ranger will be assigned to the space and that hopefully funding will allow for more parks department enforcement options. The lack of maintenance planning (currently the park is maintained by the Parks Department and a small group of volunteers) is also problematic. The Peregrine community is not only concerned about a constant lack of enforcement now,

but that this problem will be exacerbated by a larger park footprint and only one park ranger. CSPD's lack of officers particularly in this region remains a pressing problem. The problem with the "No Parking" enforcement above is only one out of several enforcement issues due to a lack of CSPD staffing.

The neighborhood has consistently requested the above items be adjusted in the plan or addressed. The Peregrine Master Association Board urges the Parks Department to reconsider these areas and address the concerns of the thousands of people who live next to the project.

Sincerely,

My biggest concerns for Blodgett Open Space are:

From:	
То:	Deitemeyer, David
Subject:	Input on Blodgett Master Plan
Date:	Thursday, February 15, 2024 1:54:52 PM

Dear Mr. Deitemeyer,

I am a 20-year resident of Peregrine and live in the Sawback neighborhood directly below the North Blodgett trailhead. I fear that our way of life is about to change with the approval of the new open space plan.

Our neighborhood is tucked away. Soon, the bike park will be widely promoted, enticing more people to come into the area, forever changing the quiet peacefulness that we have enjoyed. That said, I know that you have to forge forward with a plan. Here are some things I have been thinking about and would urge you to consider.

Make North Blodgett a Hiking-Only Park

The major use of North Blodgett is now hiking. We have a large retired community here, and many of us hike the open space every day. Why not keep it that way by designating it a hiking-only park? We were shocked to see only one mile of hiking-only trails in the new plan. We fear the creation and promotion of the bike park with connecting trails into North Blodgett will bring many more bikers into North Blodgett and change what makes this area special. If mountain biking were kept at the quarry/expanded area, with trails not connecting to North Blodgett, that would help preserve its peacefulness, a safe space for wildlife, safer trails for hikers and a more pleasant experience.

Proactive and Specific Safety & Security Plan Needed Before Expansion

The Sawback neighborhood is very fearful of the expansion mainly for one reason: we already have street racing, broken bottles, parking overnight on our streets, people having sex in cars, etc. We know the expansion will bring more people and increased problem activity. Locking gates is imperative but even then, crime will increase if street parking is not enforced.

The proposed plan does not include a specific, proactive safety and security plan in the area of the trailhead including identifying specific gate closure times, plans for how the gate will be closed versus automatic gates, and lack of enforcement currently. We would like to see a specific plan and automatic gates as a requirement before moving forward with the master plan.

Paragliding Doesn't Make Sense in a Densely Populated Area

I was pleased to see that paragliding landing spots were removed from the neighborhood parks where children play. However, paragliding does not belong in a densely populated neighborhood. It should be in an open area without homes or bighorn sheep activity.

Please consider the needs of the Peregrine community and wildlife before approving the plan as it is currently written. This is our backyard - an incredibly special, wild space that needs to be preserved for the generations to come.

Re: [Corrected]: "Blodgett "Mountain Bike & Recreation" Master Plan"
Saturday, February 17, 2024 11:48:13 AM

As the directly across the street from Blodgett Open Space, Centennial Glen filing # 2, I and our residents are in complete agreement and share the same sentiments as expressed in her email.

We strongly ask that you at the very least completely remove the options of a lower parking lot, a four-way stop at Orchard Valley & para gliders. I can't even take the mention of banning dogs seriously as it is so ludicrous and unfair.

Please be more balanced in considering the interests of all your constituents and tax payers.

On Fri, Feb 16, 2024, 10:18 PM Sandra K Sutter <<u>sandysutter@comcast.net</u>> wrote: Greetings,

I am a resident and home owner in the Peregrine division of Alpine Glen, across from The South Blodgett Loop Trail head (what the Parks Dept. is now referring to "Orchard Valley" trail head).

Since I first became aware of the "Blodgett Master Plan" I have been voicing my opinions with alternate solutions on the parts of the plan that I and my neighbors don't agree with... all from the perspective of an actual neighboring resident who will be most affected in significantly negative ways. Several neighbors I know, and others I have gotten to know, told me it was a waste of time to speak up and expect to be heard because "the city Parks Department will do what they want regardless." I remained hopeful, although extremely stressed.

For the last seven months my anxiety levels have skyrocketed, and other neighbors in the adjacent neighborhoods have been experiencing migraines... all because of the CS Parks Department's insistence to cater to the Mountain Biking community at the expense of ALL "non-biker" trails users and ALL adjacent neighboring residents.

Shame on you! Shame on you for not giving the neighboring residents the respect we deserve by reaching out directly to us and giving us MORE TIME to be able to review and respond! We have lives, we have obligations, we have responsibilities, we have crises to tend to, we have family emergencies to deal with, and we have health/medical issues and emergencies to manage and tend to. We can't spend our days thinking *"hmmm, I wonder*"

what the city Parks Department is covertly planning for my neighborhood, now?"

I started reading the "final" Blodgett Master Plan after it came out 19Jan24 and attended the presentation by David Deitemeyer a few days after it came out. Just prior to that I developed a health issue (residual from a surgery), and shortly after began dealing with an ongoing family/household illness challenge. Today is the first I have been able to sit down and attempt to voice my continued dismay on this Blodget Master Plan charade. Which is at the end of your pathetically brief 30-day window to read, review and respond period.

Although I haven't had a chance to deeply review the plan again, here goes:

1 - 30 days to review the plan: Seriously? That is a slap in the face to us adjacent neighboring residents, most of whom still don't have a clue the CS Parks Department is planning this disaster!

2 - The only reason you still have the Orchard Valley Rd/Centennial Blvd/Woodmen Rd intersection 4-way stop sign/stop light in the plan as a "future possibility" is because you clearly still plan to install that, regardless of the fact is would be beyond a safety/traffic hazard. It proves you still have every intention of building a huge and devastating parking lot directly across from my Alpine Glen and the Centennial Glen neighborhoods at The South Blodgett Loop Trail Head (across from the top of Orchard Valley Rd).

- Quit gaslighting us!!

- Completely remove the option of the 4-way controlled intersection at the top of Orchard Valley Rd!

- It can always be addressed as a separate issue in the future if needed, for some oddball reason.

3 - You say you plan to keep The South Blodgett Loop Trail Head ("Orchard Valley") as is, for now; yet you state you will add a "turnaround area for horse trailers". I have yet to see a horse on the trail... and since the CS Parks Department doesn't manage/maintain the rapidly eroding trails from the increased bike usage, I can't imagine how the CS Parks Department would even remotely maintain the additionally increased erosion from horses. Calling the expansion a "horse trailer turnaround area" is just renaming what you really plan to do! - more gaslighting!

4 - Continuing with the expansion of commercial recreation by hosting **para gliding**, which dramatically increases intrusion and crime and lack of peace and safety for the Oak Valley residential community, the Alpine Glen and Centennial Glen residential neighborhoods, and the hikers, walkers, trail runners, and dog walkers who traverse the Blodgett Open Space trails for the peace and tranquility that currently exists, is basically telling us taxpayers that WE DON'T MATTER!

- Para gliding over our neighborhoods? SHAME ON YOU!

- Commercial para gliding recreation on our taxpayer funded land? SHAME ON YOU!

5 - It is CLEAR that the mountain biking community has the CS Parks Department in its back pocket!!!

- more trails for bikers

- more "biking only" trails
- decreased hiking trails
- forcing walkers, hikers, trail runners, and dog walkers OFF the trails to accommodate your

mountain biking community. - SHAME ON YOU!

6 - Exactly what existing trails do you plan to remove? ie: Red Squirrel Trail! If you remove ANY part of Red Squirrel Trail, especially the bottom portion off the North Blodgett Loop trailhead, that will remove the reason for MANY hikers who now go there... including myself! It's short, quick, challenging, great nature area, and a quick burst of mental peace and exercise for those of us who can only do shorter intense hikes.

7 - At the presentation following the release of the "final" Blodgett Master Plan, Mr. Deitemeyer stated that you are "looking at" banning DOGS from the Blodgett Open Space trails! SERIOUSLY???

- Colorado Springs is one of the most dog-friendly cities, probably in the country... with the exception of the CS Parks Department, apparently.

- We can take our dogs into King Soopers, Walmart, some coffee cafes, etc... but soon we can't walk and exercise our dogs on the OUTDOOR TRAILS for which we pay TAXES???

- Is Colorado Springs becoming a dictatorship?

8 - FYI... Myself, and many other neighbors I've spoken with will NOT be supporting or voting for any more tax money to be spent in support of funding TOPS programs that build, and build areas that diminish/destroy our city's peaceful areas, and that you don't even take care of what you've already have built up!

9 - This Blodgett Master Plan proposal has nothing to do with preserving "Open Space", but everything to do with eliminating the Open Space that currently exists (the reason people go there)... and turning it into an UNPEACEFUL recreation center for mountain bikers that are rude and disrespectful to all the other folks who use the trail who are NON-bikers!

10 - The CS Parks Department is prioritizing ONE people group, the mountain bikers, over FOUR other people groups, walkers, hikers, trail runners, dog walkers!
Therefore, you should call it what it is: The Blodgett Mountain Bikers Master Plan"!
SHAME ON YOU!

11 - Shame on you, CS Parks Department!

I am at a loss of the pathetic way this "plan" was rolled out. The mountain biking community has been in communication with the CS Parks Department pleading for more biking trails. Us adjacent residents have been kept out of this plan, and have only heard of it through word of mouth.

The CS Parks Department should have, and still could, DELAY the finalization and approval of your Blodgett Master Plan. You could, and should, **directly** reach out to us adjacent neighborhoods with street signs at the exits of the neighborhoods to read and review the plan, and give us six months to respond. That is only fair!

I apologize for the lack of organization with this email, but between the life stuff I've been dealing with, combined with the brief window of response the CS Parks Department is allowing, I put together what I could at this point.

⁻ SHAME ON YOU!

Thank you for your time, attention, consideration, and respect for our position. I appreciate your attempt to show you are willing to at least listen.

God bless.

Enjoy a great day!

'We can't direct the wind... but we can adjust our sails!'

Subject: Proposed Peregrine and Rockrimmon Suggested emergency evacuation plan

To All Concerned,

During the Waldo Canyon fire, people from the Peregrine area were stuck on Woodman Road trying to evaluate the community for several hours just to get down the road to safety. Despite what some of you might of heard, the people in the neighborhood were not negligent and did not wait too long to evaluate. Rather the fire situation changed rapidly, as no one initially thought it would come over the ridge, including city officials. I know; we lived through it. In my opinion, ensuring an efficient evacuation should have been straight forward. See attached suggested plan I quickly put together.

Had winds not changed direction during the Waldo Canyon fire, and the fire kept progressing into the Peregrine area, it's very possible people might have lost their lives due to suboptimal handling of the evacuation of the area. Nobody would like that to occur in the future. We are asking that this plan, or similar, be considered and that city officials give the community a timely briefing on the plan they intend to implement in the future in the event of the need for a rapid evacuation.

I hope everyone finds this helpful. It's not my intent to blame, but rather to fix and be better prepared for the future. With the expansion of Blodgett Open Space parking adding additional people to this fire-prone area, and really regardless of any additional population-increasing future plans, this is something way overdue.

Please feel free to forward this email to any other concerned party I missed.

Regards,

Subject:	[Corrected]: "Blodgett "Mountain Bike & Recreation" Master Plan"
Date:	Friday, February 16, 2024 10:18:45 PM

Greetings,

I am a resident and home owner in the Peregrine division of Alpine Glen, across from The South Blodgett Loop Trail head (what the Parks Dept. is now referring to "Orchard Valley" trail head).

Since I first became aware of the "Blodgett Master Plan" I have been voicing my opinions with alternate solutions on the parts of the plan that I and my neighbors don't agree with... all from the perspective of an actual neighboring resident who will be most affected in significantly negative ways. Several neighbors I know, and others I have gotten to know, told me it was a waste of time to speak up and expect to be heard because "the city Parks Department will do what they want regardless." I remained hopeful, although extremely stressed.

For the last seven months my anxiety levels have skyrocketed, and other neighbors in the adjacent neighborhoods have been experiencing migraines... all because of the CS Parks Department's insistence to cater to the Mountain Biking community at the expense of ALL "non-biker" trails users and ALL adjacent neighboring residents.

Shame on you! Shame on you for not giving the neighboring residents the respect we deserve by reaching out directly to us and giving us MORE TIME to be able to review and respond! We have lives, we have obligations, we have responsibilities, we have crises to tend to, we have family emergencies to deal with, and we have health/medical issues and emergencies to manage and tend to. We can't spend our days thinking *"hmmm, I wonder what the city Parks Department is covertly planning for my neighborhood, now?"*

I started reading the "final" Blodgett Master Plan after it came out 19Jan24 and attended the presentation by David Deitemeyer a few days after it came out. Just prior to that I developed a health issue (residual from a surgery), and shortly after began dealing with an ongoing family/household illness challenge. Today is the first I have been able to sit down and attempt to voice my continued dismay on this Blodget Master Plan charade. Which is at the end of your pathetically brief 30-day window to read, review and respond period.

Although I haven't had a chance to deeply review the plan again, here goes:

1 - 30 days to review the plan: Seriously? That is a slap in the face to us adjacent neighboring residents, most of whom still don't have a clue the CS Parks Department is planning this disaster!

2 - The only reason you still have the Orchard Valley Rd/Centennial Blvd/Woodmen Rd

intersection 4-way stop sign/stop light in the plan as a "future possibility" is because you clearly still plan to install that, regardless of the fact is would be beyond a safety/traffic hazard. It proves you still have every intention of building a huge and devastating parking lot directly across from my Alpine Glen and the Centennial Glen neighborhoods at The South Blodgett Loop Trail Head (across from the top of Orchard Valley Rd).

- Quit gaslighting us!!

- Completely remove the option of the 4-way controlled intersection at the top of Orchard Valley Rd!

- It can always be addressed as a separate issue in the future if needed, for some oddball reason.

3 - You say you plan to keep The South Blodgett Loop Trail Head ("Orchard Valley") as is, for now; yet you state you will add a "turnaround area for horse trailers". I have yet to see a horse on the trail... and since the CS Parks Department doesn't manage/maintain the rapidly eroding trails from the increased bike usage, I can't imagine how the CS Parks Department would even remotely maintain the additionally increased erosion from horses. Calling the expansion a "horse trailer turnaround area" is just renaming what you really plan to do! - more gaslighting!

4 - Continuing with the expansion of commercial recreation by hosting **para gliding**, which dramatically increases intrusion and crime and lack of peace and safety for the Oak Valley residential community, the Alpine Glen and Centennial Glen residential neighborhoods, and the hikers, walkers, trail runners, and dog walkers who traverse the Blodgett Open Space trails for the peace and tranquility that currently exists, is basically telling us taxpayers that WE DON'T MATTER!

- Para gliding over our neighborhoods? SHAME ON YOU!

- Commercial para gliding recreation on our taxpayer funded land? SHAME ON YOU!

5 - It is CLEAR that the mountain biking community has the CS Parks Department in its back pocket!!!

- more trails for bikers

- more "biking only" trails

- decreased hiking trails

- forcing walkers, hikers, trail runners, and dog walkers OFF the trails to accommodate your mountain biking community.

- SHAME ON YOU!

6 - Exactly what existing trails do you plan to remove? ie: Red Squirrel Trail! If you remove ANY part of Red Squirrel Trail, especially the bottom portion off the North Blodgett Loop trailhead, that will remove the reason for MANY hikers who now go there... including myself! It's short, quick, challenging, great nature area, and a quick burst of mental peace and exercise for those of us who can only do shorter intense hikes.

7 - At the presentation following the release of the "final" Blodgett Master Plan, Mr. Deitemeyer stated that you are "looking at" banning DOGS from the Blodgett Open Space trails! SERIOUSLY???

- Colorado Springs is one of the most dog-friendly cities, probably in the country... with the exception of the CS Parks Department, apparently.

I am at a loss of the pathetic way this "plan" was rolled out. The mountain biking community has been in communication with the CS Parks Department pleading for more biking trails. Us adjacent residents have been kept out of this plan, and have only heard of it through word of mouth.

The CS Parks Department should have, and still could, DELAY the finalization and approval of your Blodgett Master Plan. You could, and should, **directly** reach out to us adjacent neighborhoods with street signs at the exits of the neighborhoods to read and review the plan, and give us six months to respond. That is only fair!

I apologize for the lack of organization with this email, but between the life stuff I've been dealing with, combined with the brief window of response the CS Parks Department is allowing, I put together what I could at this point.

Thank you for your time, attention, consideration, and respect for our position. I appreciate your attempt to show you are willing to at least listen.

God bless.

Enjoy a great day!

David and Cassie,

I understand the photos in the figures may not have come through properly so I am re sending them.

Dear David Deitemeyer and Cassie Melvin,

First, I would like to thank you for the hard work you have done. I understand how difficult it can be to create something to satisfy so many different stake holders. My intent here is not to complain but to suggest solutions that come from the perspective of a long-time passionate user of the Blodgett Open Space. I have been involved as much as possible in the public forums, however those forums are not conducive to dialogue, so I appreciate your time in reading this email:

My proposed change to the master plan is to:

A. Make the hiking only loop consist of the following trails: North Blodgett Loop Trail to Humming Bird Trail to Red Squirrel Trail as shown in the in dark blue in the map below (Figure 1).

B. Do not create the machined prepared alternative trail to Red Squirrel. Highlighted in the second Map below (Figure 2)

The reasons why this change is useful and important:

1. In you maps you show a wildlife corridor going through the trees where the existing Red Squirrel Trail closure is proposed, but the actual existing wildlife corridor goes through the yellow highlighted area in figure 2 where the new trail is being proposed. This can be easily confirmed by looking at the animal tracks after a snowfall, by actual animal observations, the location where the deer cross the road every morning and evening, the amount of scat in the highlighted area vs the forested area and from looking at satellite views that show the mixed semi-open vegetation habitat, which is preferred by deer and sheep, exists in the yellow highlighted area.

2. The proposed Red Squirrel trail with a few small exceptions is in very good shape. See figure 3. The few exceptions can be fixed by a small work crew using hand tools and natural trail elements. The trail will remain in good shape provided that its use is restricted to hiking and not mountain biking. The narrow, straight and slightly

steeper grade causes mountain bikes to skid on the way down and spin out on the way up when they approach obstacles which hikers easily step on or over without skidding or sliding.

3. Hikers and Trail runners make up the vast majority of the users in the north section of Blodgett Open Space, although this is changing. A key factor for hiker enjoyment is to be immersed in nature and shielded from elements of city life (traffic, noise, etc.). The loop drawn in Figure 1 is an ideal example of this environment. The new proposed trail which is planned to be excavated by trail making machinery creates a completely different user experience. Instead of a single track through a quiet forest it is a flow track shared by bicycles. This new trail will almost certainly be the preferred downhill route by every bike the uses the north parking lot as well as part of a circuit by many cyclists that are staged at different parking lots. The change in user experience for the hiker will be fundamentally and dramatically changed as they will now be encountering fast moving bicycles using this as an exit. The efforts to make a world class mountain bike park in the south end of Blodgett Open Space which will greatly exacerbate this negative hiker experience. I am all for creating a great world class venue for mountain bike riders, but strongly encourage that this one loop remains to preserve the hiker experience. We have seen what the new machine-built trails in Ute Valley look like and they have permanently changed the hiker experience in that park (see Figure 4). I propose we keep at least one portion of one park for hikers that want a peaceful nature experience.

4. The solution I propose is a low to zero cost solution, since we are utilizing an existing trail and not expending cost to make a new trail. At the very least, may I suggest that the zone I am discussing here be placed in a phase II status and put on hold to be discussed later. The Mountain Bike Community is more interested in the more significant work proposed for the southern portion of the Blodgett Open Space. I would hope they would be willing to compromise a bit to let hikers have this one stretch of trail, or at least be willing to postpone development until we see the effects of projects done in the south.

I greatly appreciate your taking the time to read this email. I would be very happy to discuss, collaborate, and facilitate compromise on solutions. I am also willing to volunteer my time and manpower to help with the effort. I have been involved in trail making crews in the past both in El Paso County and Jefferson County and I really think we can find ways to maintain a Blodgett hiking loop in a non-invasive non machine driven way.

Best Regards,

David and Cassie,

Thank you for inviting me to send you my suggestions regarding the Blodgett Master Plan. Since I didn't get an indication my my email was received, I am including it again here in case it did not reach you.

Best Regards,

Hello,

I've read that the # of hiking trails will be greatly reduced, and only one short trail will exclude mountain bikes!!

We live 10 min from this area. We walk our dog here. That will stop once mountain biking becomes popular on the trails. Then we will need to drive farther to walk the dog.

Isn't there already an area for mountain biking where the quarry was being done?

Mountain biking means less hikers, joggers, dogs. The mountain bikers should have their own area- no one likes hiking around them. Or at least make more trails for hike/walk/jog only.

Please re-evaluate this plan as hikers are currently the main user and this plan is anti-hiking!!

Thank you,

Just read todays Gazette article... Just don't get why some people don't see the need to make Blodgett the city's first nature preserve, making animals the priority over people...

Im still have not been able to find details on any wildlife study done by the city concerning Blodgett, can you send me that or tell me none has been done.

Thank You

Looks like some good progress on the newly released plan.

Two items remain on my priority list.

1. I will still advocate to make Blodgett a nature preserve rather then an expanded people park. I see no evidence you commissioned a wildlife impact study...in fact I note this section in the plan...

The USFS will need to conduct NEPA analysis, Section 106, US Fish & Wildlife Service Consultation for Threatened and Endangered Species, and any other required compliance required by law on National Forest System Lands. • The USFS cannot commit resources to performing the above stated compliance within the City's Blodgett Open Space Master and Management timeframe. • The Blodgett Peak USFS Trail project is a low priority compared to the Wildfire Crisis Strategy and other higher priority work for at least the next five years, from 2023 through 2028.

If a study has been conducted please direct me to it. I need details. We know for a fact, bear, deer, bobcat, and other animals live in Blodgett and making this an expanded people park will have a negative impacts on them. Please give me your answer to this question, why not make Blodgett a formal nature preserve?

2. Connector Trails. If these trails happen we will need additional walls, fences, trees, gates, signs etc to limit impact to our home and the Alpine Glen subdivision.

Best Regards
